UNITY NETWORK

Our unity network will established leaders of each initiative as well as councils & teams directly working together for each area of the transition. This will include both domestic and global networks/teams to have open communication and collaboration.

MAIN HUBS:

- US
- Canada
- UK
- South Africa
- Australia
- Mexico
- Germany
- Peru
- Russia
- China
- France

Each transitional system will have the following collaboration system:

- National Council
- State Council
- Local Council
- Project teams assigned by location
- Project leaders assigned by location
- Unity Networks including global teams

All system transitions will be documented as well as set meetings regularly with both councils & projects teams. Communication leaders will be selected by each council & project team to ensure fluid communication & understanding of needs. An open network will be established for each sector allowing applications to join projects. Each project team will be responsible for putting together an application team, overseen by local council.
