
NEW EARTH TRANSITIONARY GOVERNMENT GUIDE

A Blueprint for the Transition of Systems from 3D to 5D
Written by: Archeia Aurora

INTRODUCTION

The Vision

The vision of the New Earth Transitionary Government ("NETG", was created by Mother of All Creation. In 2007, Mom began receiving the downloads for the transition to New Earth, the Ascension Process. She created the blueprint and the structure for this model of collaborative governance, as the necessary living body of government to guide Humanity through the transition from a 3D system, to a 5D system.

The NETG is a living body of consciousness, which operates as a collaborative council model of governance. In New Earth, we may transition to a different model of governance that is more aligned with Self-Governance, however, during the Transition a council model of government is required. The NETG is made up of various levels of council members, who are leaders by example. These leaders have committed to being the change they wish to see in the world. It is only through BEING the change, that we create change.

Leadership in the 3D world was not based on example or integrity, it was based on appearances, corruption and manipulation. Leadership in the 5D model, is based on DNA, blueprint, frequency, and commitment. Those who have the soul blueprint to be leaders of the Ascension, and who know in their heart they are destined to be a part of the NETG, will feel guided to this book and information. All Human beings will be a part of the transition, but we require heart-based leadership, and those who are fully committed to standing in integrity.

The NETG has two functions: to train heart-based leaders to fulfill their roles as council members of the NETG + transition, and to create successful blueprint models for networks, communities and collaborations that serve Humanity as a whole. Overall, the goal is to guide a complete transitional system for all beings, industries and sectors from the 3D to the 5D.

This book is a collection of my personal thoughts, ideas and downloads that I have received from Mom and my Higher Self on the NETG blueprint + transitional systems. I believe wholeheartedly in Humanity and in our collective vision for a grander world. The vision of New Earth will be brought into manifestation. My mission here in this life was always to change the world. I am forever in gratitude to Mom, my greatest teacher and my whole heart, for showing me how to BE the change.

Leading Humanity into Sovereignty

Mother of All Creation decreed that the New Earth Transitional Government would be the leaders of the ascension for Humanity.

The vision of the Transitional Government is a peaceful assembly of sovereign beings, working together in harmony to create cosmic order, integrity, and abundance for all beings on Earth.

We teach and encourage all Galactic Human Beings to claim their own sovereignty, become their God Self, and to lead Humanity through the example of divinity.

Our vision is that all of Humanity will become One, working together through council and cooperation to govern ourselves through compassion and communication.

Physical Sovereignty

Physical sovereignty is the art of learning how to BE your own God Self, without relying on co-dependent behaviors with other people, places + things. The shadow aspect of Humanity which prevents their sovereignty is attachment. When we are attached to people, places + things, we believe that without them, we cannot sustain on our own. It is essentially never evolving out of the toddler phase. Attachment often presents itself through people. When we are attached to certain people in our lives, we allow them to dictate our choices, behaviors and feelings, thus giving our power away.

When we are attached to things, we often are codependent on these "things" to make us feel better or to feel happiness. We usually refer to this kind of attachment as addiction, yet many believe they are not addicts because their choice of addiction is not drugs or alcohol. All of Humanity are addicts in one way or the other. We can be addicted to our phones, food, sex, sleep, possessions, or any "tools" we use such as alcohol, marijuana, coffee, supplements, etc. To be clear, any "thing" can be used in divine alignment when there is no attachment, regardless of what that thing is.

We can also become attached to certain places or environments in our life and feel that without that environment, we cannot function. This could be attachment to our "hometowns", jobs, places we live, certain areas or cities. We have become codependent on this place or environment, thus giving our power away and staying inside the comfort zone. Physical sovereignty starts by observing the attachments you have to people, places + things. How do they dictate your decisions, emotions and actions? Make a list of all the things you feel you have an attachment to, by asking yourself, "if I did not have this person, place, or thing in my life, would I feel like I could not sustain?"

The best way to begin anchoring in physical sovereignty is to anchor in mastery of your own body + behaviors. Detoxing, fasting, or going without a certain thing for a specific period of time, allows you to re-evaluate the relationship you have with that person, place or thing. It is never the person, place or thing that is the issue, it is always our relationship + co-dependency on that thing that is the problem. When we detox from any attachments, we come to find our true sense of self, and then we regain our sovereign relationship with the external world. When we have physical sovereignty, we also feel capable + have inner strength to move through challenges + gain resilience without using crutches.

Emotional Sovereignty

The Control Dramas are the main ways that we as Humans stay co-dependent on one another emotionally. These were first coined by James Redfield in his Book, *The Celestine Prophecy*.

The Intimidator takes energy from others by seeking to control them through fear, intimidation, powering over, and abuse.

The Victim takes energy from others by never taking accountability for themselves, blaming, + seeking sympathy from others.

The Interrogator takes energy from others by intruding, incessantly asking questions, always needing to know what someone is doing/who they are with/what time they'll be home, etc.

The Aloof takes energy from others by running, escaping, refusing to communicate + open up, and by creating a false sense of isolation.

By identifying your type of control drama and/or the control drama used by others around you, they become easy to dissolve + move past.

When we are emotionally co-dependent, we not only rely on others for emotional feedback + validation, but our emotions become dictated by the emotions of others. Additionally, if we do not learn how to process + digest our own emotions, they can overtake us, and we thus give our power away to our emotions. Mastering emotional sovereignty begins with understanding + fully feeling your emotions. Often, this may require you to practice solitude and spend moments by yourself in order to feel, process + discern what emotions you are feeling versus what others are feeling. Once you begin to truly get in tune with your emotions, you can begin to pinpoint what the emotions are.

It is helpful at this stage to reference the Vibrational Scale of Consciousness in order to see what vibration of emotions you are experiencing. When we understand what the emotion is, we allow ourselves to feel it, we can then begin to learn to process our emotions + alchemize them into higher states. For example, anger is a powerful emotion that often gets stuffed down and is not properly transmuted or released in a positive way. Anger can easily be alchemized into the higher emotional state of passion, which allows us to take inspired action rather than succumbing to bitterness.

Full Feeling

Part of mastering emotional sovereignty is allowing yourself to fully feel your emotions. Most of us have been taught to escape, hide, suppress, or run away from our emotions. This leads to sickness in the body + spirit, and often keeps us in loops of lower emotions. When you first begin to turn your feeling centers on, it can become overwhelming. Allowing the full release of your emotions through crying, movement, journaling, expressing, etc., is key.

Identifying + Processing

Once we begin to fully feel our feelings and allow them to pass through us, we begin to identify how WE feel, and discern this from how others are feeling. By nature, we are all feeling beings and thus we absorb emotional energy from one another on a daily basis. Without being able to discern our own emotions from others, we stay in a state of confusion and overwhelm. Write down how you are feeling, how your body is feeling, + identify the source of those emotions.

Responding versus Reacting

All of the control dramas take energy by getting us to react to one another. Reactions + triggers are a sign of emotional co-dependence. Either we are giving our power away to our own emotions, or to the emotions of others. By working with our bodies + our emotions, we learn how to process them, digest them, + alchemize them into higher emotional states such as peace, compassion, understanding, joy, and love. This allows us to respond versus react.

Mental Sovereignty

The EGO programmed mind is a cluster of belief systems, fears + dysfunctions that have been implanted into Humanity through the lower thought system. It is our fears, wounds + traumas that the EGO programming feeds off of, and keeps us trapped into giving our power away, co-dependency + illusion. When we dissolve our EGO programmings, we free ourselves from limited thought + behavior patterns and we open ourselves up into limitless thought and sovereign behaviors.

The first step in dissolving the EGO is having the awareness of it, as awareness transforms into consciousness. The second step is identifying the programmings that are hijacking us and how they are keeping us in limited and co-dependent thought.

Mastering mental sovereignty takes time, as these programs are deeply imbedded into our DNA. We must dissolve many ancestral wounds + dysfunctional belief systems in order to regain our sovereign mental bodies. This is the process of cutting chords with lower thoughts, mastering our thought system, + releasing all external opinions + projections.

The EGO programs often make us look outside of ourselves in order to know what to think. We rely on external authority, external people, our communities/families, as well as institutions such as religion, science, culture, + academia to tell us what we should think. We also tend to use external validation such as relying on others to validate our thoughts, relying on the opinions of others, or internalizing other's projections onto us, as truth. As you go through the EGO Death Process, you will learn how to trust your own internal process, how to dissolve belief systems, and how to unlock your unlimited thought aka God Consciousness.

We recommend utilizing the following tools:

- EGO Death Ceremonies
- Breaking through the EGO Workbook
- Cutting Chords with all lower thought
- Learning the art of being present in the moment of now
- Validating your own personal truths
- Learning to connect to your Angels
- Being proactive in correcting + changing dysfunctional belief systems
- Detoxing your mental body through a period of abstinence from information, technology, and the consumption of external opinions

Energetic Sovereignty

Energetic sovereignty is when we reclaim our power and no longer rely on external sources of energy to sustain ourselves, rather we are connected directly to Source + our Higher Selves.

Energetic co-dependence occurs because Humanity has not been taught to master their own energy, thus they have to rely on getting energy from outside sources in order to feel alive.

We all share in collective consciousness as well, so we often are sharing energy with others without even realizing it. Our true life-force energy comes directly from our connection with Source + the anchoring of our Higher Self. This dissolves the need for external energy, which we seek through Control Dramas (as discussed under Emotional Sovereignty), over consuming things that "give" us energy such as energy drinks, coffee,

sleep, etc., and by feeding off the creative energy of others without contributing our own creative energy. Energetic Sovereignty not only allows us to become fully sustainable beings, but protects our energy fields from external distortions + unlocks our creative potential

We recommend the following tools + techniques for anchoring in Energetic Sovereignty:

- Establishing energetic boundaries with others who seek to drain or take energy from us
- Practicing techniques such as shielding, rainbow bubble, + the rainbow sword
- Utilizing energetic cleansing tools such as crystals, sage, + incense
- Connecting with Source/Divine Feminine essence to unlock your life force energy
- Unlocking your creative potential through the exploration of your creative gifts
 - Cultivating inner joy
 - Automatic writing + connecting with your Higher Self
 - Sun + Moon gazing

Spiritual Sovereignty

Spiritual Sovereignty is the mastery of coming into your God Self, through connection to Source + following your inner compass. Here on Earth, Humanity has been suffering from a deep disconnection from Source, and specifically, from the Divine Feminine essence. We have disconnected from our natural state of BEing, flow, intuition and surrender. When we are co-dependent on institutions like religion, to tell us about God or tell us that God is external from us and not within us, we give away our Spiritual Sovereignty.

We give our power away to belief systems and other attachments such as needing to have "proof" of something, relying on gurus or others to tell us what is true + how to be "spiritual." Spiritual sovereignty begins by acknowledging that you are God with God, and all souls share the divine connection to the Mother/Father Godhead=Source. Dissolving all previous belief systems about religion, God, spirituality, and what is "true" helps open you up to your own internal compass and inner knowing, that is the only truth that must be discovered.

Mastering our spiritual sovereignty also includes learning discernment. Discernment is when we utilize a combination of our logic + intuition, through the brain/heart connection, to decide for ourselves what is true and what resonates with our soul. No one can tell you what truth is, and there is no "proof" that can be obtained. The only truth you will ever truly know, is the truth you discover within yourself, through your own intuition, guidance + connection with Source. It is truly through the experience of the journey home to Source that we master this. All souls are on their own unique paths home to Source=God Self.

We recommend the following tools to assist with mastering Spiritual Sovereignty:

- Get in touch with your intuition and learn to follow your own internal guidance regardless of any external opinions
 - Follow the synchronistic events
- Anchor in the divine traits + utilize the Divine Traits Guide
 - Become familiar with the Universal Laws + Divine Decrees
- Practice self-love disciplines which puts you in tune with your own internal compass

Relationship Sovereignty

Relationships is where Humanity displays the most co-dependence.

Of course, having relations with one another is creation in motion, however the difference between divine relationships + 3D relationships is vast. Romantic Relationships are where we experience the most co-dependency and attachment. We have been programmed to give our power away to another and to sacrifice or compromise some part of ourselves in the process, in order to make another happy or to meet their expectations. True divine unions are based on sovereignty, as both partners have mastered their sovereign state of being and they are now working together in an inter-dependent relationship.

The following are the ways in which co-dependency presents in 3D relationships:

- Conditions + Expectations of one another
- Conditional love which relies on each partner making the other happy
 - Playing out wounds/traumas + control dramas
- Sacrificing personal happiness for the sake of another
 - Blame + lack of accountability
 - EGO Needs, wants + desires

Romantic relationships are not the only ones that experience co-dependency. Friendships, partnerships, and family relationships also display this. We experience this as constantly feeling drained from the relationship, lack of honest + transparent communication, blame/projection, and placing EGO wants, needs + desires above healing, transformation and personal accountability.

In order to establish true sovereign relationships, we must first come to know ourselves and establish a divine relationship with ourselves. This is done through inner work, reflection, transformation + self-love. All others must ALSO be doing this work, or the relationships will never be sovereign but will continue to be out of balance + codependent. This is why those who are on this path often experience separation from partners, children, families + friends.

Choosing to put yourself, your healing, your joy, + your purpose FIRST, is the only way to master sovereign relationships. To have firm energetic boundaries in that you will only engage in relationships that are based on this sovereignty. This also includes having no expectations of another, but allowing them their own path + journey and holding unconditional love for them.

UNIVERSAL LAWS + DIVINE DECREES

The Laws of Creation

All man-made laws are unenforceable against sovereign beings who are embodying the God Self. We are held under no law of man but only under the Universal Laws of Creation, enacted by Prime Source Creator Herself.

All Universal Laws must be honored by all beings choosing to inhabit Planet Earth. Under the New Paradigm, we must be One with all of Creation and existing under the natural laws of the cosmos.

During the transition from 3D to 5D, all of Humanity will come into alignment with natural laws, and Universal Law will become the innate code by which we live by.

The Utopian Society

The Utopian Society will endeavor to be a living government,
always improving and changing for the best.

Like the garden of Eden, the Utopian Society models itself after
a garden- cultivating and encouraging the growth of that which
is beautiful and good while resisting the growth of weeds.

The allegory of the flowers and weeds applies to people,
businesses, and states as well as to flora itself.

Utopia does not enforce lifestyle or morality on an individual.

The system of the Utopian Society described herein is that of a
very simple government where the people macro-manage the
country. The politicians obey the people!

In the Utopian Society, the rights of individuals to have
employment or an income stream is as fundamental as the right of
individuals to accumulate wealth and not be taxed.

Every able-bodied person that makes an effort can win in the
Utopian Society.

DIRECTOR'S COUNCIL

ROLES & RESPONSIBILITIES

The Director's council is made up beings who have dedicated
their lives to the service of Humanity. These beings have the
role to oversee and implement the vision for New Earth.

This council is responsible to guide and oversee all other
councils to ensure that all decisions and teachings are aligned
with Universal Law and aligned with the highest frequency.

This council meets with every other council to discuss the ever-
evolving collective consciousness and has open dialogue with all
other council leaders about ideas and projects to implement to
best serve humanity.

This council may also choose to create new councils based on the
needs or suggestions of the collective.

Any being who takes a leadership role in any council and shows
their dedication, may be nominated by a Director's Council
Member and will be voted on by the council.

The goal of the Director's Council is to ensure a smooth and harmonious transition from the 3D system to the 5D system. The role of each Director's Council member is to lead by example, embody 100% commitment to their Ascension path, and to help teach, guide and oversee others serving as Council members + Humanity as a whole.

United States of America Leading by Example Decree

As Decreed by Source, the United States of America is contracted by Creation to lead this Ascension by example. The US has been designated as the foundation of the Ascension process and the ascension point. The United States, as a unified collective, must lead the planetary ascension by example.

The US is the example of divinity, unity, divine justice, truth, freedom & love. We will fulfill our contract with Source by taking full accountability for our failures, dysfunctions, and out of right action choices. We agree to correct all out of right actions and align ourselves with Universal Law.

We, as a united collective, agree to act in full integrity with our contract and to abide by the decrees of Source, to honor Mother of All Creation as our Divine Director, and to surrender to the Divine Will for our country.

We, as a unified collective, are responsible for transforming our EGO programming both individually and collectively, and to being the beacon of light for the world. We are to set the example for unity, acceptance, compassion, passion, truth and light.

We, as a unified collective take accountability for all blame, projection, taking of energy and resources, greed, power-over, domination, and control.

We, as a collective, agree to work in co-creation & collaboration with all other sovereign nations of the world as one.

New Earth Transitionalary Government Decree

As Decreed by Source, ALL current governmental structures are hereby dissolved and replaced with the NETG structure. NETG has 90 days to implement the new structure to allow for a seamless transition, once the entire Collective has collectively chosen to transition to 5D.

The new US constitution will be immediately effective upon the date of the transition, as well as the Sovereign Being Decrees. All immediate decrees will also be in effect as of the date of transition.

Education for all former governmental personnel will be provided within the 90 days of transition in order to establish their roles of service within the community, as well as to ascertain if any former governmental employees are a vibrational match to the NETG councils.

All meetings, information, and education MUST be open source to be able to be accessed and viewed by all citizens at any time and must include a platform to provide feedback.

DIVINE GOVT PROPOSAL

Our County Governments will be transformed into a council structure of a central inner council, 13 outer councils + an Advisory Board and the federal Integrity Panel.

UNITY & ACCOUNTABILITY

The councils will function as one, starting with the Federal and down to the County levels. Each set of Councils will collaborate with one another, overseen by the Advisory Boards which will consist of citizens who are not a part of the Councils as a means of keeping integrity and accountability in check.

LEADERSHIP & INTEGRITY

The Federal Integrity Panel will oversee the appointment of each being selected for the Councils on ALL levels. The Integrity Panel will be chosen specifically by the Federal Inner Council as those are masters of energetics to ascertain the highest possible choices are made. The Integrity Panel is also responsible for overseeing the integrity of each council member on all levels, as well as the councils as a whole, to ensure that all systems are operating in integrity, transparency, and truth. Any issues regarding the lack of integrity of a council's actions or council member, will be brought to the Panel for resolution. The Panel itself will be made up of two feminine and two masculine, for a balanced harmonics perspective.

MEDIA + COMMUNICATIONS COUNCIL

ROLES & RESPONSIBILITIES

This council is made up of beings who have particular roles in Media and Communications. This Council is responsible for ensuring that all beings, platforms, and media outlets are completely uncensored and given the right to speak truth. This council is also responsible for teaching the principles of truth, integrity, & honoring of Universal Law in media + journalism.

This council will meet regularly to discuss new solutions and platforms for expression and communication, and will also create guidelines and recommendations for businesses, platforms and networks on how to be in integrity with free speech, full transparency, and freedom of expression.

This Council will be the leaders in the new paradigm of self-expression, communication, and art through movies, shows, journalism & printed media.

Free Speech Decree

As decreed by Source, free and sovereign expression is the birthright of every being. However, speech, expression, writings, etc., must all be aligned with Universal Law and Love or will not be allowed.

The gift of free speech is much different than the idea of free speech based on the free will paradigm. In the free will paradigm, all forms of expression were allowed including lower vibrational expressions, lies, deceit and ignorance. The United States no longer permits speech that is outside of love and truth, and will be unequivocally denied.

Truth + Transparency Code

WHAT IS TRUTH? Full, whole truth requires no convincing, no proof, no clickbait, & no manipulation. Truth stands on its own frequency & cannot be undermined. In 5D, we all know truth by the way it feels & by the frequency of the information. Truth is also what we have AWARENESS of. When we know something to be true, we cannot avoid it, nor can we try and change it.

DISCERNING TRUTH

- Feel into the information
- Discern whether the Source of the information has an agenda
 - Feel into whether it resonates with you
 - Look at all information from a neutral standpoint
 - Dissolve your belief systems about what "truth" is
- Ask your angels for confirmations on whether information is true
 - Trust yourself
- Do not attach to any information

TRANSPARENCY

- Being honest & vulnerable
- Sharing your truth no matter what
- Being open about what you know & what you don't know
- Being willing to admit responsibility & accountability for any misinformation
 - Being open to all new forms of truth
 - Sharing from our hearts rather than our mind
- Sharing the truth without fear of rejection, backlash, or misunderstandings

Media Ethics

"All media outlets" includes: News Outlets, Talk Shows, Online publications, Newspapers, Magazines, Radio Stations, Social Media Platforms, Podcasts, Vloggers.

ALL Media Outlets, Commentators, Content Creators, & Social Media Platforms must allow freedom of speech, & must provide neutral information and open perspective.

No Media Outlets may change, alter, manipulate, or skew information to fit their opinion. All may share their feelings, perspective, solutions & ideas regarding any piece of information but may not create confirmation bias. No information may be withheld, hidden, bypassed or denied in order to prevent disclosure to the public. All information must be shared, or the media outlet will face dissolution due to lack of integrity.

The intent of all sharing of information must be:

- to express
- to bring awareness
- to bring understanding
- to create solutions

Any information that is shared with the intent of propaganda, influencing, creating bias, financial gain, or any lower frequency agenda, will be flagged for lack of integrity. Any being or platform who is flagged for lack of integrity will have the opportunity to correct, take accountability, & re-share the information.

Whistleblower Protection

ANY being who wishes to come forward as a whistleblower, providing disclosure information, MUST be allowed to share their experience, their perspective, & provide information that was previously hidden.

ANY retaliation against a whistleblower will immediately result in dissolution of the media outlet, business, or company. Freedom of Expression will not be denied to any citizen.

ALL Media Outlets MUST provide a space for whistleblowers to come forward if they wish to. Any media outlet, person, publication, or platform that denies a whistleblower the right to express information will be immediately dissolved under the Whistleblower Protection Clause. All Media must uphold the right to disclosure, freedom of expression, and truth.

Censorship Violations

No media outlet may censor ANY information, post, article, video, clip, etc., for ANY reason other than the following:

- the information or content shows extreme violence including rape, murder, assault, etc., and is not being presented for ANY reason other than to instill fear into the consciousness.
- the information or content is being published to feed the agenda of a corporation, entity, government agency, private corporation, or elite person.

Any Media Platform that is found to be censoring information that is not found to be an exception, will be immediately shutdown and further investigated. Any outlet that is proven to have censored information that is not an exception, will be permanently shut down and dissolved. All Platforms will receive full training & one warning for their censorship practices & have 60 days from training to implement them.

5D BUSINESS + FINANCE COUNCIL

Roles & Responsibilities

The 5D business & finance council is made up of beings who have experience in business and/or the financial sector, and are now responsible in educating Humanity on transitioning to a 5D business model & Quantum Financial System. All businesses in 5D will be based in integrity, cooperation, and equal energy exchange.

All corporations will transition to co-operations, in which people are put first. All businesses will need to comply with Universal Law and hold integrity and transparency.

Equal energy exchange will be the mode of financial exchange and this council is responsible for ensuring that equal energy exchange is being honored in all business systems & financial systems, as well as assisting businesses with implementing a 5D business model.

This council will meet regularly to discuss the challenges of the business transitions, and to form new solutions and training for businesses to understand abundance and synergy.

This council will also be the leaders in new innovative ways to do business & create solutions for all co-operations during the transition. This council assists with overseeing and guiding all co-operations into the people first model, as well as overseeing the transition of the Quantum Financial System.

Highest Goods & Service Business Decree

As Decreed by Source, all Businesses will now transition into Co-Operations. Every Business will be evaluated by both the NETG Councils to determine if the business is for the Highest Goods & Services of all. The guidelines are as follows:

- the product or service provides joy, healing, awareness, support or fulfills a current need of the Collective. Any product or service that does not provide these to Humanity must either transition their business purpose or dissolve.
- ~Equal Energy Exchange is permitted for all exchange of goods, services, etc.

Equal Energy Exchange Economy Decree

As Decreed by Source, all debt is now forgiven. All beings existing within the United States of America are now granted and given financial freedom. All economy is now to transition into an Equal Energy Exchange Economy. Money can and will be utilized as a tool of equal energy exchange, however, the exchange of goods, services, support, love, & all other authentic means of exchange are permitted.

The EEEE is based on service to the whole, giving and receiving, gratitude, and abundance. Every being, co-operation, owner, etc., may utilize equal energy exchange for all needs. The exchange is up to the discretion of all parties involved, to be agreed upon in integrity & fairness, and executed with love and gratitude.

It is now decreed that lack and debt are to be dissolved from our collective consciousness and economy, to be replaced by abundance for all.

Quantum Financial System

Introduction

We are the QFS. Many have heard of the QFS, as well as NESARA/GESARA. The basis of these abundance programs is the establishment of the Quantum Financial System. However, many have continued to give their power away to external forms of this "system", not realizing that WE, Humanity, are the QFS and Source is the true NESARA/GESARA. The QFS is a system that is based on Frequency, Embodiment, Intent + Integrity. Therefore, this system cannot be hijacked or controlled by any single person or group.

Imagine the QFS as a quantum energetic network that is already in existence, as it is connected to the Limitless Quantum Field. We are connected to this system through our auric fields, and through our own personal quantum fields. This system is based on frequency, meaning that one cannot access the QFS if they are not operating at the same frequency which is the frequency of Love, Truth, Abundance =Source. It is through our frequency that we unlock our personal abundance, which is our limitless potential. This system is also based on embodiment, as we must actually embody our God Self + embody sovereignty in order to access this currency.

Our currency is our hearts, our soul, + the embodiment of our Higher Self. In essence, our frequency is the key to unlocking the QFS, our embodiment is how we establish ourselves as members of the QFS, and effectively establish our own personal currency within this system that is based on our cosmic blueprint. We then navigate the QFS + utilize our currency through our intention.

Because the QFS is based on divine intelligence, it ONLY responds to pure intent, without any distortions, self-importance or corruption. When we place our intent for what we are seeking to manifest or receive through the QFS, it must be purely for the highest good of all, and not based on any EGO wants, needs or desires. Finally, the way the QFS self-corrects, is through the discerning of integrity. If a being establishes themselves into the QFS through their embodiment + manifests abundance from the QFS with pure intent, but falls out of integrity with the use of that abundance either due to the EGO or not aligning with Universal Law, the QFS will then reject your soul's currency until integrity can once again be established. This is how the Abundance Grid self corrects and stays in alignment with love.

QFS Operating System

THE QFS OPERATES ON THE ABUNDANCE GRID, AN ENERGETIC GRID UPON THE PLANET THAT CAN ONLY BE ACCESSED THROUGH FREQUENCY. THE FREQUENCY OF THE QFS IS SOVEREIGNTY, WHICH ENSURES THAT IS CANNOT BE HIJACKED BY ANY PERSON, GROUP, OR TECHNOLOGY. ONLY A HUMAN BEING EMBODYING THE ENERGIES OF SOVEREIGNTY=LOVE, TRUTH, ABUNDANCE, + HIGHER SELF, WILL EVEN HAVE ACCESS TO THIS SYSTEM. THE QFS WILL ESSENTIALLY OVERLAY THE CURRENT PHYSICAL FINANCIAL SYSTEM WE HAVE IN PLACE, AND THIS TRANSITIONARY SYSTEM WILL NEED TO ADAPT + ALIGN WITH THE BLUEPRINT OF THE QFS DURING TRANSITION. EVENTUALLY, WE WILL SHIFT ENTIRELY OUT OF ANY PHYSICAL FINANCIAL SYSTEM + WILL OPERATE SOLELY ON THE QFS AS AN ENERGETIC GRID.

FREQUENCY IS THE KEY THAT UNLOCKS THE DOOR TO ENTERING THE QFS. THOSE WHO DO NOT HOLD THE KEY CANNOT ENTER. WHAT THIS MEANS, IS THAT ONE MUST ATTAIN AN ENERGETIC FREQUENCY THAT IS A MATCH TO TRUE ABUNDANCE. THESE FREQUENCIES ALIGN WITH UNCONDITIONAL LOVE, TRUTH, SOVEREIGNTY, INTEGRITY, + ALIGNMENT WITH UNIVERSAL LAW. WE EMBODY THIS FREQUENCY THROUGH SELF-LOVE DISCIPLINES, EGO DISSOLVEMENT + SHADOW WORK, SELF-HEALING WORK, TAKING ACCOUNTABILITY, + ANCHORING IN OUR PERSONAL SOVEREIGNTY. THROUGH THIS PROCESS WE ALSO LEARN TO DISSOLVE ALL LACK, LOWER BELIEF SYSTEMS, + BEGIN TO ANCHOR IN THE ENERGIES OF WORTHINESS, INTERNAL ABUNDANCE, + CONNECTION TO SOURCE.

THE SECOND STEP IS ANCHORING INTO THIS GRID THROUGH OUR EMBODIMENT OF HIGHER SELF. THIS IS ACHIEVED THROUGH CONNECTION TO THE TRUE PRIME SOURCE CREATOR, THE DIVINE MOTHER WHO IS THE TRUE NESARA, AS SHE HOLDS THE UNLIMITED ABUNDANCE OF THE UNIVERSE. THROUGH OUR CONNECTION, SELF-LOVE, DISCIPLINE + DISCERNMENT, WE ANCHOR IN OUR FULL UNIQUE BLUEPRINT OR ESSENCE WHICH ESSENTIALLY CREATES OUR PERSONAL, UNIQUE CURRENCY WHICH WE USE TO EXCHANGE ON THE QFS. ACCESSING OUR FULL ESSENCE IS ABOUT RECLAIMING ALL PARTS OF SELF, UNLOCKING OUR INNER GIFTS/SKILLS, RE-ESTABLISHING OUR CONNECTION TO THE PRIME SOURCE CREATOR, AND THUS HAVING ACCESS TO OUR PURE LIFE FORCE ENERGY WHICH IS OUR COCREATIVE POWER.

NEXT, WE PROVIDE EQUAL ENERGY EXCHANGE THROUGH THE QFS USING OUR PERSONAL CURRENCY (BLUEPRINT) THROUGH OUR SERVICE TO HUMANITY AND TO LOVE. WHEN WE ARE IN SERVICE TO THE WHOLE, WE ARE SURRENDERED TO DIVINE WILL, AND WE HOLD PURE INTENTIONS FOR OUR MANIFESTATION REQUESTS WHICH HAVE NO EGO, DISTORTIONS, CO-DEPENDENCIES OR WANTS/NEEDS/DESIRES. WE THEN MAY FREELY PLACE OUR REQUESTS AND INTENTIONS OUT INTO THE QFS. THE GRID WILL THEN RESPOND TO OUR INTENT BY EXCHANGING BACK TO US EQUAL TO WHAT WE

HAVE EXCHANGED WITH IT. MEANING, THE HIGHER THE LEVELS OF SERVICE AND PURE INTENT, THE GREATER THE EXCHANGE RATE, SO TO SPEAK. THE QFS IS DIVINELY INTELLIGENT SO IT WILL ONLY RESPOND TO PURE INTENT AND WILL ALSO DELIVER TO US WHAT WE ARE SEEKING, BUT IN THE WAY THAT IT IS HIGHEST AND BEST TO RECEIVE IT.

FOR INSTANCE, THE QFS MAY EXCHANGE TO ME ABUNDANCE, MIRACLES, SYNCHRONISTIC EVENTS, OPPORTUNITIES, OR MANIFESTATIONS OF PEOPLE, PLACES OR THINGS THAT CAN BEST MEET THE NEEDS OF MY INTENT. WE SHALL ALWAYS BE PROVIDED WITH EXACTLY WHAT WE NEED IN THAT MOMENT, AND THE QFS CAN BYPASS ALL LINEAR AND LOGICAL WAYS OF MANIFESTATION.

LASTLY, THE QFS IS SELF-CORRECTING, MEANING THAT IT EVALUATES NOT ONLY THE INTENT AND FREQUENCY OF EACH SOVEREIGN USER, BUT IT ALSO GAUGES THE INTEGRITY OF THE USER. FOR EXAMPLE, IF A BEING HAS ESTABLISHED THE PROPER FREQUENCY, ESTABLISHED THEIR UNIQUE CURRENCY THROUGH EMBODIMENT, AND EXCHANGED A PURE INTENT, BUT UPON RECEIVING THE EXCHANGE FROM THE GRID, FALLS OUT OF INTEGRITY WITH THE ORIGINAL INTENT OF THE REQUEST OR FALLS OUT OF ALIGNMENT WITH UNIVERSAL LAW, THE MANIFESTATION WILL THEN BE WITHDRAWN. THIS IS NOT TO SAY ANYONE WILL BE "PUNISHED" OR ANYTHING OF THE SORT, BUT IT WILL BE A LEARNING PROCESS FOR ALL OF HUMANITY! AS WE ARE, FOR THE FIRST TIME, LEARNING DIVINE ACCOUNTABILITY AND INTEGRITY WITH ALL OF OUR INTENTIONS, MANIFESTATIONS, AND CREATIONS. WE WILL LIKELY HAVE TRIAL AND ERRORS WITH THIS PROCESS BUT WILL BE GIVEN MUCH GRACE AND PATIENCE WITH IT AS WELL.

AS SHARED, THE CURRENT FINANCIAL SYSTEM WILL UNDERGO A TRANSITIONARY PHASE IN WHICH THE PHYSICAL FINANCIAL SYSTEM + USE OF MONEY WILL HAVE TO REALIGN WITH THE BLUEPRINT OF THE QFS. FOR EXAMPLE: THE EARNING OF MONEY WILL NO LONGER BE LINKED TO FEAR, SURVIVAL OR FIGHT OR FLIGHT, BUT WILL ALIGN WITH TRUE ABUNDANCE + EQUAL ENERGY EXCHANGE. ALL FORMS OF CONTROL OR HIJACKING OF THE MONETARY SYSTEM WILL CEASE, TO ALLOW ALL OF HUMANITY TO RECLAIM THEIR FINANCIAL SOVEREIGNTY. THE USE OF "MONEY" WILL LIKELY STILL CONTINUE THROUGH THE TRANSITION, HOWEVER, ABUNDANCE WILL NOW NATURALLY FLOW TO THOSE WHO ARE IN SERVICE TO THE WHOLE, HAVE REACHED THE FREQUENCY OF LOVE, + HAVE PURE INTENT. ALL OF HUMANITY WILL HAVE TO ADJUST + ADAPT TO THE BLUEPRINT OF THE QFS IN ORDER TO UNLOCK THEIR TRUE ABUNDANCE, WHICH WILL BECOME THEIR PERSONAL CURRENCY.

Equal Energy Exchange Economy Proposal

Equal Energy Exchange is the pure synergy between giving and receiving. The essence of equal energy depends not on physical money or even resources, but it based on a sacred exchange between two beings of equal energy. This is the notion of giving and receiving. In every transaction or exchange, we are giving and receiving energy. If there is no energy within the exchange, energy from the heart & infused with intent, then the exchange itself has no life, and no integrity. It is dead.

Our current economy is a reflection of our EGO minds. What we call "inflation" is simply a projection of the inflation of our EGOs-our control, our greed, our arrogance, and our pride. Inflation is when goods and services are inflated in price, due to an illusionary shortage of such items.

We created the concept of "debt" and "lack" as a reflection of our own human consciousness. Debt itself is based on the idea that we could owe something more than what we have to give, which shows the arrogance of the human mind. Lack consciousness was an illusion placed within our consciousness that says "there is not enough!". The very nature of this concept goes against all Universal Laws. Everything in Creation is made of energy, and energy is infinite. Source energy is infinite, and we are infinite.

To create an idea that the Universe, the God within everything and everyone, could ever lack, is simply a projection of our minds. Within this matrix we feel unworthy and separated. Because of this, we seek to "own" things. We attempt to fill our spiritual void with things and money. Money is a symbol of energy, however, it has been used to create lack where organically, there is none. Our economy is therefore built on a dead energy, one that is lacking in spirit, love, and intention. Our economy is not based on equal energy exchange.

For example: to purchase a bottle of water for \$4-6 USD is a crime against humanity. Water is free from the Earth. Even our salt bodies of water can easily be filtered into fresh, pure drinking water. To monetize and put a price on a resource which is freely provided by our host is absolutely absurd. The exchange is in no way equal, because one party decided to "own" something that is not theirs to own, and then in turn has charged money from a being who should have free access to such a resource. This is a dead energy exchange.

If we were to return to an economy based on love, there would never be a shortage or lack of anything. Equal energy exchange is the purity of intent to give what you have to another who receives in gratitude and provides something to meet your need. This is LOVE. This is equal energy exchange.

For example: If I am in need of wood to keep my family warm for the winter, but I do not have the funds to acquire this wood, I can offer to dedicate my time chopping wood for someone who has the land and access to such wood. I have now given my love to them to keep their family warm, and in return I am blessed with wood for my family. The key here is that each party is seeking to support and take care of the other, in the true nature of understanding that we are all one. Business would no longer be based on money, greed, power, control, etc. but would be based on mutual giving/receiving, gratitude & love. We are returning to the ways our ancestors functioned, and at the same time, evolving into a completely new way of living.

The more beings that shift into giving and receiving through intention and love, the more we open up opportunities for all humans to thrive. We are making way for true abundance & oneness to prevail over scarcity and greed. When we take accountability and responsibility for the ways in which we have enabled and contributed to such a dead economy, we take back our own power. Every dollar we spend is either going towards the highest good of all, or it is going towards a black hole.

This is not about "rich" versus "poor", but about a shift in perception of what giving and receiving is. For those that have many blessings, to be able to give to another to receive that blessing, continues on the wheel of abundance. If every being was overflowing with the art of giving, the wheel of receiving would never stop! We would be in the perfect flow and ease of life, never seeking or lacking for anything. What is our resistance to giving? As humans with the EGO mind, we fear giving because we give with no intention behind it. We give IN ORDER TO RECEIVE, rather than giving and being OPEN TO RECEIVING. That is the difference.

As the human EGO grew, so did the monetization of life. Never in this history of the Earth have we had to pay to exist. Most things that are now monetized, were once freely given. Due to greed, these things became subject to money-another dead energy exchange.

When we look at all the ways in which our existence is now monetized, we will find an astounding list such as:

- land
- housing
- food
- water
- electricity
- clothes
- child care
- health care
- education
- goods & services

If we feel into our ancestors, we arrive at the perspective that life used to be governed by freedom. We had the freedom to roam the Earth and make a home or space where land was available.

Those who built upon land, did so for the highest good. They created villages, farms, school houses, factories to produce goods, etc. Communities were tasked with taking care of its own.

There was a role for each and every being in a community, and all was shared amongst them. To have one being in the community without, would ultimately fracture the whole. Compared to today, we have so many jobs and professions that truly do not serve the whole, they only serve the few. This fractures the entire consciousness.

Returning to the Oneness model of life is the basis of the Equal Energy Exchange Economy. To respect all beings and nature as One with ourselves, we begin to care for everyone and everything. We close the gap between "me" and "you", and it becomes we. We, as a collective, can only thrive through oneness, kindness, love, and giving. Those who seek to hoard, control or put themselves above others are a parasite to the whole. We will also come to realize that if what we are doing is not serving the whole, then we are serving a dead energy. To serve the self and the self only, at the expense of others, creates a dead economy. Today, we have endless amounts of goods & services which are created and monetized only for profit. Their purpose does not serve the whole, and thus any money that is directed at these goods or services creates more dead energy.

For example, take a look at the epidemic of fast fashion. Resources from the Earth are taken and exploited, put together in poor working conditions by employees who are similarly exploited, and then sold for cheap prices. These garments are often only worn once or twice before their quality decreases and thus they end up being thrown away or never worn again. This is

a dead energy that continues to serve no higher purpose for the whole and further rapes the whole of its resources.

Money has stripped us of our organic ability and urge to create, to be, to laugh, and to be in joy. We don't have the time to spend doing the things we truly love, because we are too busy working to pay for the things that are innately free. This is the insanity of the world. The irony is that where we find joy, we also find creative passion, and where we find passion, we find abundance.

If every soul on the planet was living a life in which they found joy doing what they loved, every soul would be serving the whole. When every being is serving the whole, rather than the self, the entire ecosystem naturally and organically supports the ALL. Take a look at any animal ecosystem and you will find that all animals operate under a divine intelligence. They each serve a role which supports their needs while benefitting the whole of the ecosystem. Compare that to our modern-day economy and you will see that we attempted to create a false and illusionary ecosystem that is NOT alive, it is dead.

The EEEE will create a divine ecosystem of life, in which all needs are taken care of by the whole. Each of our roles will contribute to this divine flow. There will be those that are guided to teach, to raise children, to grow crops, to build communities, to create beautiful art, to dance, to lead, to tend to animals, etc. We will no longer need to struggle against the natural flow of life but will once again learn to flow with it. As we return to divine equal energy exchange, we return to the divine flow of the yin and yang, the giving and receiving.

In order to change the way money functions, we must change our relationship to it. Our worth, joy, and purpose is not reflected by the amount of money we have. Abundance is a state of being. It is the heart-set that everything we need will always arrive exactly when we need it. The problem with today's relationship to money, is that it is never enough. We are always worried about the future, concerned that what we have won't be enough, or that what we need won't arrive and thus we have to find some way to force our needs to be met. This creates struggle and lack.

We spend our existence working to obtain money, in order to feel we are secure, safe, happy, and successful. When we begin to realize that money is simply ONE form of exchange, but there are many other forms of exchange, we shall transcend our attachment to it. Money should be seen as a form of a gift, a form of giving that is used when it is appropriate. However, what about our love, time, effort, support, gifts, and skills? Those are more powerful forms of giving that we fail to utilize in our everyday life.

Use the power of your love and intention to be fully conscious in every exchange that you make. Look at the areas of your life in which you could dedicate more energy and love rather than just money. Look at the purchases you make and ask yourself, is this for the highest good? Will this assist me being in service to the whole? Will this truly bring me joy? If the answer is no, it is time to reflect on where we direct our energy and how this is being mirrored back to us in our lives.

Corporation to Co-Operation Transition

We are entering a new time, one in which the old systems and structures no longer work. We are evolving into a new way of living and working. Corporations are shifting to Co-Operations based on new principles

Principles
RIGHT ACTION
DISCIPLINE
WELLNESS
HIGHER THOUGHT
PASSION
UNITY
CO-CREATION
COMMUNICATION

RIGHT ACTION

The principal of right action is based on the full awareness of what each being's role is, and in all moments, what the best action is to support the whole. The new way of operating must be based on every action supporting and serving the whole rather than the individual. The shift in operations requires each employee to shift their perspective on their role. Their role is to support the entire unit, regardless of the individual preferences, wants, or needs. This shift in perspective allows the entire unit/business/co-operation to function as a whole of moving parts, rather than separate parts.

When all employees are in right action, there are no dropped balls. There is a seamless flow to all projects, communication, and day-to-day tasks. Having a structure in which all employees, departments, etc., are aware of what all other employees and departments are focused on allows for quality assurance and accountability. When each employee, department, etc., is accountable and responsible for the goals and tasks of the WHOLE, it creates an environment of support and initiative. Right Action creates checks and balances which keep everything in flow.

EXAMPLES

- ~All employees are responsible not only for their own tasks, but the tasks of their entire department/team.
- ~All employees should be trained on all tasks and skills required for the department as a whole, not just their individual role.
- ~All departments should be aware of what projects and goals the other departments are working on. All employees should be aware of ALL deadlines within the team/business/co-operation.
- ~There should be a list of daily tasks required to keep the operation running smoothly, and all beings are responsible for ensuring these tasks are met.

DISCIPLINE

Discipline, consistency & integrity are the key factors that make a grand employee and a grand business. In this changing paradigm, it is no longer about control, power over, or rigid structure. The key is to allow each being their unique flow while instilling the principles of discipline. The more self-discipline each employee has, the more consistent they are and the greater amount of integrity they will hold with their actions. Our new normal may include working remotely or in an untraditional setting. Self-discipline will be essential in these situations.

Daily disciplines for each employee, team + department will keep consistent communication and action moving energy forward. Every employee should incorporate a wellness discipline with their routine in order to ensure they are taking care of themselves.

Each day should include a scheduled time for meditation, journaling, reflection, etc., as well as 45 mins a day of movement (including walking, running, yoga, dance, etc.)

Employees are encouraged to document everything either electronically or on paper of /calls/meetings/notes each day.

WELLNESS

The wellness of each employee is vital to keeping the whole running in function. Wellness includes physical wellness, emotional wellness, mental wellness and spiritual wellness. Each aspect is vitally important for the overall well-being of the business or co-operation. Self-care is essential for each being as part of their daily routine. When we fail to take care of self, we are unable to function and be in service at our grandest level. All businesses/companies must encourage wellness, healing, discipline, and right action as the foundation of their co-operation.

The physical vessel processes energy and must be cared for. Physical wellness includes a daily discipline of 45 minutes of movement, honoring the vessel by listening to it, and providing it with whole and pure food and medicine. Under the Dr. Emoto theory, all pure intention put into a substance, specifically water, changes the molecular structure of the substances to a more harmonious and high vibrational substance. This method has been shown to be able to transform any substance into a purer frequency that is actually healing to the physical body.

Using this simple technique with all food, drinks, and medicine placed into the body will have great positive effects on the functioning of the body.

Using the simple mantra "I ask for this ____ to be transformed into the highest organic ingredients that are healing and harmonious for my body", before ingesting any food or drink, will help keep the body clear and functioning at its grandest capacity.

Daily Disciplines for Food/Water

- ~Drink at least 8 glasses of blessed water per day
- ~Meals should include food that is healing to the body, while enjoying snacks and any food that brings joy

Grounding is a term used for connecting the body to nature for about 2-5 minutes at a time, as many times per day as each being feels guided to. Grounding is essential to keeping focus and diligence while completing any task or project. Grounding keeps you centered and able to bypass distractions or unconscious actions. Grounding can be done by placing your feet on the Earth for about 2 minutes at a time including deep breathing.

EMOTIONAL WELLNESS

Emotional wellness includes self-care practices which allow each employee moments each day to process any emotions they are experiencing, challenging events, and daily stress. "Processing" means that each being is allowing themselves to feel their emotions, while working through them and then letting them go each day. When emotions go unprocessed, it causes stagnant energy inside the physical body which then leads to disease, illness and pain.

Daily disciplines for each employee includes 15 minutes per day of journaling, writing notes/organizing ideas, and reflecting on the experience of the day. Each employee should be encouraged to discuss their feelings openly with any manager, supervisor, owner, or other employee. Fully transparent and open communication allows for resolution and solutions. Each employee must be encouraged to communicate if they require a rest or break from their daily tasks in order to process emotions. The wellness of the employee is a priority for the entire co-operation.

SPIRITUAL WELLNESS

Spirituality is our connection to Spirit or to Source energy. It has no religion and no belief systems but understands that we are all interconnected and express our energetic signatures in unique ways. Each being must be in tune with their own energy and with Spirit in order to truly harness their full potential and their grandest self. Part of spiritual wellness includes spiritual discipline which is an everyday practice of gratitude, reflection, and inner connection.

Each employee should incorporate a spiritual discipline into their daily routine. This can vary from person to person on what works for them. The following are examples of spiritual disciplines that should be done per day:

- ~Meditation (15-20 mins per day)
- ~Daily Affirmations/Mirror Technique
- ~Daily journaling (15-20 mins per day)
- ~Daily gratitude list
 - ~ Prayer
 - ~ Sun Gazing
 - ~Grounding

HIGHER THOUGHT

Higher thought is a state of positivity that focuses on inspiration and growth and does not judge things as negative or positive. Each employee should be trained on higher thought, as thoughts create reality, it is a very powerful force for all employees to be focusing on the higher. Lower thought focuses on problems, while higher thought focuses on solutions. Lower thought focuses on things as "negative" or "bad", while higher thought views everything as an opportunity to grow.

The working environment should always encourage higher thought. Judgement and blame should never be present in the workplace as it creates stress, competition, and lower thought. Weekly Co-Creative meetings are a great way for higher thought to begin manifesting the visions and dreams of the Co-Operation as a whole. 5D Co-Operations function off of vision, intuition, serving the greater good, and limitless possibilities. This is what allows abundance to actually manifest.

PASSION

"If you love what you do, you will never work a day in your life" We have all been given particular gifts, and part of the fun on our journey is discovering those gifts & fostering them into reality. As our entire world develops and evolves into 5D, it will be of the utmost importance for each person to be passionate about what they do from day to day. Together, we are all Co-Creating our realities full of Love and Light. The idea of a workday needs to be fully reimaged and redefined through a much different perspective than in previous time periods.

Passion and Purpose should be the fuel that motivates each individual to get up and out of their beds each and every morning as they assist in adding value to the world around them. We have now moved into the Age of Aquarius, and a very welcomed piece of that is living in an age of "passion and purpose", because of our ability to now see full truth as well as the expansion of the collective consciousness is fully underway.

This means each one of us can embrace living in the now, appreciating each experience as it happens and constantly reevaluating one's goals.

When we discover our purpose, we tap into an endless supply of energy to perform our role in a better way. This means each one of us can embrace living in the now, appreciating each experience as it happens and constantly reevaluating your goals. Feeling becomes an important part of realizing each individual's full passion and purpose, identifying the fire that burns inside

and sharing it with the world. Creating meditation times and space in each work environment sends many positive messages to all members of your team and encourages them to stay grounded and go inside for answers.

Discovering one's purpose at the workplace is associated with one's value and unique talent and exploring what to give back to society. Meaningful work in the form of purpose acts as a stimulant for improving self-worth, as it develops the personal identity and dignity of a professional. Performance in the form of involvement in a meaningful activity, results in growth and actualization of one's potential at work. Unity and Co creation are the direct result of a purpose filled and passionate worker & working environment. Purpose and performance harmonize with each other, as purposeful engagement stimulates interpersonal relationships, such as camaraderie with one's colleagues, citizenship behavior, mentoring and mutual support.

Communication, sharing visions and accountability becomes more of a focus rather than a focus on a strict /rigid management hierarchy. Shifting the focus to one of purposeful engagement positively impacts the overall environment. Dissolving old belief systems of how "things are done here" will quickly bring the spark to any team full of passionate and purpose filled members. Unity is achieved with the feeling amongst the entire organization that each member feels truly valued, heard, and focused on the collective goal established. The results will speak volumes as to the success of this approach. Through this unity, passion, and purpose we remain in right action, relentless in pursuing our consistent goal of balanced harmonics.

UNITY

Unity is the state of being united as a whole. Organizations have in the past, used team building activities as a means to bring employees together to strengthen and deepen relationships. In the old business paradigm, these fostering of relationships stemmed primarily from the need to increase employee output or productivity to ultimately gain more and more profit. We have broken away from this limited ego-based paradigm.

The new business model of New Earth will be based fundamentally on Unity and Love in Action. The planet was put "on pause" that separated people from each other through mandatory lockdown.

People have had the opportunity to reflect on their values, their paths and what aligns best with the energy of Oneness.

They have had moments to reflect on what mattered most;
connection with others.

Unity means:
Harmony
Balance
Child Like Wonder and Fun
Spreading Unconditional Love
To Be of Service to Mother Earth

Collectively we are evolving beyond the limitations of the physical plane. Unity Consciousness is our natural state of being. Love will become the driving energy behind the Co-operation's and team member's motivation for working together to fulfil a common cause.

It is paramount that the Co-operation's vision remains pure and true to love in all moments. Focus will be on infusing love and grandness into the goods and services that is offered to the customer. Unity will manifest in the team in various ways. For example, two members will come up with the same ideas at the same time. Heart telepathy will also become more commonplace as a means of communicating. Whereas the old business model was based on monetary gains, the new business paradigm is based on the intrinsic evolution and growth of each individual and of the cooperation. Co-operations will begin to see the value of following Universal laws that promote right action.

Leaders will start to lead by example through walking their talk, and will gain respect by being authentic and being in integrity. Co-Operations will allow teams to grow organically and will respect everyone's ideas with equal measure. Decisions and choices will be made together in unity amongst the leaders and their teams.

People will be motivated to explore their creativity and apply this, joyfully co-creating grand projects together. The co-operation will naturally support its members by creating processes that encourage this unity. When all are working towards the highest, the energies of love will support the projects and create more synergy, abundance, and flow.

CO-CREATION

No longer will profit dictate the type of responsibilities and tasks team members have to fulfil, therefore, the concept of collaboration with others will evolve to a much more meaningful and heartfelt way of creating new products and services. Note that the word collaboration can be broken down to its suffix "co" and the verb "labor" to mean essentially working (hard) on a project together but not necessarily with the synergy or alchemy that occurs between people who are in their heart space and in the present moment of love and trust.

In the past there has been much emphasis on Project Management. Projects typically go through various stages; from inception to budget, all the way to mapping out processes and projections of outcomes or result. In the new business model, co-creation will occur in place of collaboration, where projects will manifest between people in a much more organic way. Our evolution towards higher frequency vibrations brings about a complete awareness of our energetics and how our energies affect the whole. Trusting ourselves and others will be an important factor in the process of Cocreation.

We will let go of wanting to control the situation to create a certain outcome. We will gravitate towards deeper connections with one another, and team members will naturally create ideas in unity and allow divine guidance to lead them to the next stage of the process, rather than mapping out the stages in detail that is pre-conceived.

There will no longer be the need to have strict parameters, as leaders come to the realization that there is indeed benefit in having more fluidity and flexibility that creates flow, in order for creativity of individuals to shine through naturally. Team members will be able to explore expansive avenues to be creative, cocreating projects and inventions that have never been seen before. Inventions have often manifested simultaneously within the collective consciousness like this where several beings created the same invention at the same time.

The most meaningful feedback in this new model of co-creation will come from synchronistic events rather than leaders giving specific reviews on an individual's job performance. These divine confirmations will assure team members that the project is going in the right direction. Surrendering to the present moment without pushing for a certain outcome allows the magic of Cocreating to lead to innovative paths and unknown territories

yet to be explored, thereby enriching everyone's experience and growth at the soul level. Team members will no longer need motivation from external factors but rather feel inner joy from the unfoldment of the process and trusting the organic and grander outcome.

COMMUNICATION

It is a given that clear and open communication is essential for Co-Operations to thrive. People will learn how to work with energetics so that dysfunction such as non-communication or miscommunication are eliminated within the team dynamics. The Four Agreements by Don Miguel Ruiz is a perfect resource to begin our transition towards divine communication. The First of the four Agreements is To Be Impeccable with one's words. Team members need to speak with integrity to say only what they mean.

The Second Agreement is To Not Take Things Personally. The ego thrives in suffering and wants us to be attached to things, such as other people's opinions. In the old business model, communication was a hot topic because too much energy was spent in projection. When someone is in fear or anger, they can easily lash out at you in their frustration. The key is to not take this personally. Letting go of all attachments regarding communication will allow more divine energies to flow through team members which can be refocused to moving projects and visions forward.

The Third Agreement is Don't Make Assumptions. Be courageous enough to ask questions should something need to be clarified. When the team commits to fully expressing themselves especially when they are vulnerable, leaves everything out in the open and there will be no ambiguity when it comes to other people's intentions and feelings.

Lastly, the Fourth Agreement is Always Do Your Best to communicate. If public speaking is something that makes someone anxious, then they must make an effort to improve their public speaking. Everyone must commit to leaning into the resistance so that expansion can occur beyond everyone's comfort zones. Consistency is key and leaders must be the example at doing their best.

5D Business Paradigm

The 5D business paradigm will be drastically different from the 3D paradigm. We will see more entrepreneurs in the 5D space, as well as self-governed businesses. The 5D paradigm is all about sovereignty, creative expression, and co-creation. We must come to a new understanding of "business" as we go through the transitional process. The most important thing with any business, is the intent and the energy of the business. Any business model must support creativity, growth, and abundance, not profit. All of Humanity have talents, skills, crafts and passions that they will be bringing into fruition as part of their role for New Earth.

Those who have successfully created and built 5D businesses will serve as guides and mentors for those seeking to do the same.

Entrepreneurship in 5D

- * Having 5D business guides and mentors.
- * Building the company energetically before physically launching the business.
- * Encouraging a daily practice to be a vibrational match to the new business.
 - * Building a concept vision of the Business.
 - * Fully launching the business.
 - * Keeping your Business in Integrity

5D Business Guides and Mentors

5D Business guides will volunteer to be energetic partners with the aspiring entrepreneur. They have both experience and understand energy, intent, & vibration. They help to guide the entrepreneur step by step, hold space for the creative process, & provide guidance when needed. They help the entrepreneur step into his/her divine intention for the business and to become a vibrational match to that intention. The role of the business guide is not to give advice. The role is to consciously listen to the entrepreneur as well as to their own inner guidance and ask questions.

The goal is to have the entrepreneur discover the answers from within. 5D Business mentors assist the entrepreneur with the actual mechanics of launching a business but do not control the process of it. Business mentors will have prior business experience and will understand what is needed in 5D to bring the new business to life. At some point in the future, business guides and mentors may not be required although business guides may be requested.

Building the Energetic Foundations First

In 5D, we want to encourage the aspiring business owner to create the business on paper, video, audio, electronically, etc., before physically creating it. The energetic building of a business is more important than the physical aspect as this is your true foundation. The best way to begin is by first writing down the intent of your business. The intent should always be as a service to humanity, to heal, to bring joy, & to expand. Then the business owner can create a business map. These are the steps needed to bring this to life, as well as the abundance required

Becoming a Vibration Match to Your Vision

We would encourage business owners to organize the vision for their business in such a way that they are aligned with the big vision of their business. Align your frequency with that of abundance, joy, service, creativity, etc. If there are any fears, belief systems, self-limitations, doubt, or scarcity programmings, these will be worked through first. Dissolving all EGO frequencies is essential before beginning any business, or else the EGO will hijack the process.

The future business owner should also be alerted to synchronicities that will most likely be happening with increasing frequency. He/she should be on the alert for inner guidance and wisdom and to record anything that comes to heart during the creative process. If at any time the entrepreneur starts to doubt or feel anything other than a high vibrational emotion, it will be key to meet with the business guide to help work through those low vibration emotions. This will help the entrepreneur to develop/strengthen their own intuition and guidance system so that there is full trust in self & Source.

Building a Concept Vision of the Business

Once the business can be fully visualized and the entrepreneur is a vibrational match to the vision, the next step would be to launch a concept vision of the business to gain feedback and to understand what they don't know about running a business or issues related to their product or service offerings. For example, a person may want to open a business where he/she sells organic cold pressed drinks. Before opening a storefront and investing in equipment and furnishings, the entrepreneur might want to first test the idea at a farmer's market. He/she can experiment with different combinations and flavors to determine which are most preferred. He/she will gain experience in who are the best providers of ingredients and where to get supplies.

The biggest asset to a new business owner is experience. You always want to begin with what you have first. Do not rush into thinking you have to invest or have large amounts of money, equipment, staff etc. Wisdom can only be gained through experience and perceived "failures", which are all really lessons and blessings. Start with what you know & what you have to work with.

Begin by focusing fully on the creative/developmental process of your product or service and share it with others! Money is never the focus, the focus is to give and be in service and this will provide you with your greatest feedback and also connections. The entrepreneur should continue to meet with the guides and mentors, share ideas & continue to adjust, expand, and grow throughout the developmental phase.

Fully Launching the Business

In many cases fully launching the business will just be a natural progression from the concept phase. Many things will be learned during the concept phase and people, ideas and resources will organically align. It will be key for the entrepreneur to maintain his/her vibration and intention and not get too caught up in the day-to-day opportunities and challenges of the business. New or additional advisors and mentors may be needed as the business evolves. The key during this phase to leap in full faith, trust, and to stay aligned with the intent of the business, not focusing on the external view of "success."

Staying in Integrity

If we stay aligned to our original intent & passion of our business, we will always be successful and fulfilled. The issue with 3D business is the over focus on profit and over-expansion. When 3D businesses are focused only on the external, it causes the integrity of the business to drop, and it can expand too quickly which becomes both unsustainable and out of alignment.

This inevitably leads to taking energy rather than giving energy. Your greatest tool as a business owner is to keep your focus on your self-development & evolution, to always continue to expand your craft, being willing to change and try new things, & to always focus on soul fulfillment rather than EGO fulfillment.

HEALING + WELLNESS COUNCIL

ROLES & RESPONSIBILITIES

This council is made up of energy masters who are responsible for educating humanity on maintaining their physical, emotional, and mental health through the transition.

This council ensures that all of Humanity is educated on how to self-heal, how to manage their energy systems, how to dissolve the EGO mind, how to transform lower thought, how to heal collective trauma, and guidance on going through the crystalline process.

This council also shares information with Humanity on organic healing tools and making recommendations for self-healing techniques.

This council will be the leaders of healing and helping to assist all on their inner journey as well as sharing information on alternative healing modalities such as connecting with crystals and organic elements.

This council will also ensure oversight of all Healing businesses, centers, etc. This council serves as its own healing network by assisting Humanity through education, services + goods.

Universal Self-Healing Decree

All prior forms of medicine and healing including the medical system, hospitals, personnel, medical institutions/agencies, pharmaceutical companies etc., are now dissolved. The United States will immediately implement training for all medical and healing personnel to be trained on energy, metaphysics, herbalism, self-healing, empowerment, & all other organic healing modalities.

Healing centers will be set up immediately, within 90 days, for each county and training will be provided for all healers. All healing information will be open source and provided by the County, State & Federal Healing & Wellness Councils.

All beings with healing gifts & experience will be called to train as mentors and guides for the collective in their healing journey. All healers who run their own healing businesses or provide healing services + goods shall also be shared amongst local and state networks as licensed healing providers.

Healing Systems Transition Decree

All 3D healing systems + institutions will immediately transition into 5D healing systems and modalities. This includes hospitals, medical facilities, therapy, counseling, and treatment centers that deal with physical, emotional, mental or spiritual healing. ALL medical or treatment personnel will undergo training on 5D tools and techniques, metaphysics, 5D healing modalities, as well as system transitions.

All current systems, institutions or modalities that cause more harm than healing, and do not address the root causes will be dissolved if they cannot transition. The public will also be educated on 5D healing systems, technology and modalities for self-healing and holistic healing.

5D TECHNOLOGY COUNCIL

ROLES & RESPONSIBILITIES

This council is made up of beings who have a passion and gift for technology. This council is responsible for creating and experimenting with new and evolving technology to bring us into the age of 5D crystal technology.

This council will guide humanity as well as businesses and inventors on the true nature of 5D technology, how to transition from 3D tech to 5D tech, and to ensure the highest integrity with usage of all technologies.

This council will meet regularly to discuss new visions, projects, and ideas on new 5D technology innovations.

This council will be the leaders of discovery and returning us back to pure energetic intentions & usage of sacred geometry.

Technology Integrity Code

THE MISSION

The mission is to eliminate the use of lower frequency technology and/or to eliminate the lower agenda usage of technology & instead hold all technology companies & innovators to a code of ethics for the development of any and all technology.

THE VISION

The vision is to create a world in which technology is used as a means to assist, support, heal & bring joy to Humanity. All technology that is used as a means of controlling, spying, manipulating, or taking energy from Humanity and the Planet will no longer be tolerated. This will transition us into organic, higher frequency 5D technology that does not pose a threat to the evolution of Planet Earth.

GOALS & OBJECTIVES

- Eliminate lower usages of technology
- Eliminate AI technology that poses a threat to the evolution & wellbeing of Humanity & the Planet
 - Introduce 5D technology to heal Humanity & Planet Earth
 - Replace AI technology with Divine Intelligence crystal technology that allows for innovation, evolution, & expansion of human consciousness

FOCUSES

- Free Energy
- 5D Healing Technology Crystal Technology for Manifestation
 - Sustainable Energy Innovative Technology
 - Eliminating AI & replacing with Divine Intelligence
 - Eliminating negative effects of technology
- Eliminating technology which is used for destruction rather than creation
 - Eliminating technology used to spy, control or manipulate consciousness
- Eliminate technology which does not contribute to the wellbeing of Humanity

TECHNOLOGY INTEGRITY

Any technology that creates lower frequencies, does not serve the wellbeing of Humanity or Planet Earth, is used to spy/control/manipulate consciousness, or contributes to destruction rather than Creation, will be eliminated, dissolved & removed from the planet.

ALL technology will be evaluated by the 5D Technology Council of the Transitional Government & determined to be:

- Safe for Humanity
- Unsafe for Humanity
- Unsafe but allowed for modification/evolution to be used for a higher purpose

Any technology that is found to be unsafe for Humanity will be immediately recalled, halted, & banned from production/distribution.

Any technology that is found to be unsafe but allowed modification, will have 9 months to evolutionize & change the technology to meet safe standards and be reintroduced to the market.

All technology must have one of the following intents/purposes:

- to heal Humanity
- to assist Humanity in evolution
- to bring joy to Humanity
- to bring healing to planet Earth
- to expand consciousness
- to assist in innovation, creation or production of a higher consciousness product

Any technology that does not meet these standards of integrity, does not have a higher purpose or intent, will not be allowed to be used, produced or distributed to Humanity. As we evolutionize as a species, the integrity of those producing technology is of extreme importance, as technology has been used for destructive purposes for thousands of years & has brought pain and suffering to Humanity. To become a 5D species, we must seek to improve, expand, heal & grow using technology in order to be a vibrational match to true 5D tech.

FREE ENERGY

The control, hoarding & prevention of free energy will no longer be allowed on Planet Earth. Any corporation, city/county/state, or entity that seeks to charge money for the use of energy will be shut down and dissolved. All humans on Planet Earth are to have free access to electricity, water, and natural heat/cooling solutions.

All city/counties/states are required to provide:

- free water accessibility + implement technology to clean & purify water.
- free electricity using Plasma Technology, solar panels, wind mills, water power, etc.,
- technology & solutions for heating/cooling for all homes, businesses, & government buildings.

All countries are responsible for ensuring that each citizen is provided with free resources to live, prosper & care for themselves and their communities.

HEALING TECHNOLOGY

All 5D healing technology, including but not limited to:

- Plasma products
- Med Beds or similar
- Organic healing technology such as crystal beds, oxygen therapy, light & sound healing chambers, etc., will be FREE to all of humanity.
- NO healing technology may held back from Humanity, & all costs associated with building and producing the technology will come from the Technology Fund for Planet Earth.
- Individual sellers of the technology may charge a small & reasonable price for the technology that makes it accessible to all beings (all pricing of technology will be subject to the Product Integrity Council).

All healing centers on the planet will be required to have all healing technology available for public use & all funds will be provided by the Global Technology Fund.

SPIRITUAL CONNECTION

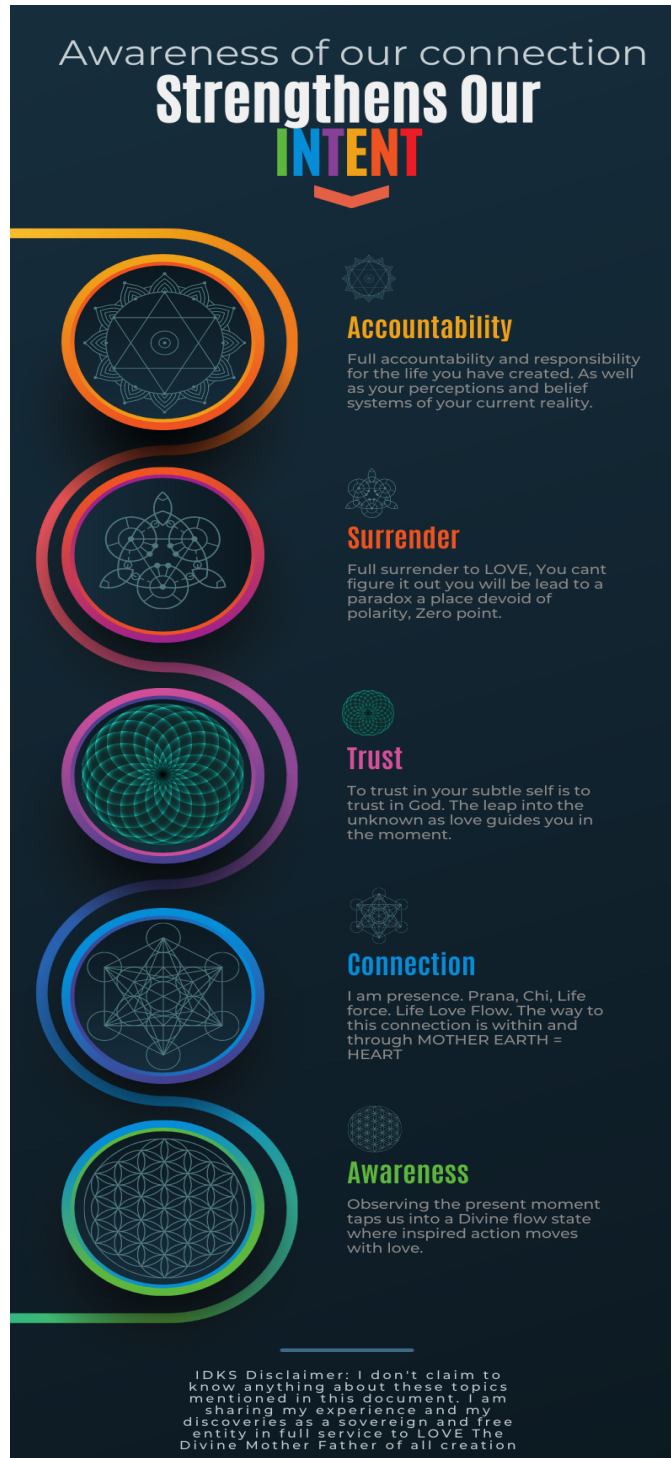

Spiritual connection & consciousness is the key to all 5D technology. This higher technology cannot be accessed or used if the intent of the being is not pure, and if the consciousness is not a match to the technology. In order for 5D technology to be able to be used for all of Humanity, we as a collective must raise our frequency to be able to receive the technology. Our physical vessels are quantum computers, & we are as powerful as Medbeds. Once we can harness our Spiritual Connection to Source, we begin our self-healing process. This then allows the pathway for more advanced Plasma Technology to unfold and be shared with humanity. All beings who are working with, developing, & using any kind of 5D technology should focus on their frequency, vibration, & clearness of vessel.

SOUND/LIGHT HEALING

Sound & light are powerful tools of healing that can be used in conjunction with 5D technology. Plasma recognizes and amplifies vibrations, so by using plasma technology with high frequency sound such as 432, 639, and 963hz can create powerful healing vibrations that help the cells release programming and density. Light healing is also a powerful tool that can be harnessed with 5D technology. Colors such as rainbow, gold, emerald green, & violet create very powerful healing energies within the cells.

The colors of the chakras can also be utilized to help cleanse certain parts of the vessel. Sunlight & the codes and activations that come through the Sun and the Moon, create vortexes of upgrades that can be integrated with healing technologies. Source has created these organic healing energies to help humanity evolve and integrate higher frequencies.

CRYSTAL SCHOOL COUNCIL

ROLES & RESPONSIBILITIES

The Crystal School Council is made up of beings who feel a strong resonance and role to assist with the education of Humanity. The Crystal Schools are the 5D educational centers and systems that will ensure whole and pure education for all crystal children and adults.

This council is responsible to meet and discuss the evolving education landscape, as well as discuss challenges for parents and teachers that can be solved with love and higher solutions. This council is responsible for helping train both parents and teachers on how to do their own inner work as well as how to teach children without programming or control. This council is also a co-creative council on Crystal School curriculum teaching and homeschooling/pod blueprints.

This Council is also responsible for overseeing the Light Centers which are the adult versions of Crystal Schools. This council will regularly meet and discuss different topics and ideas to be share to best assist all of humanity in their spiritual evolution.

This council will be the leaders of education for all of Humanity and will put the children first above all else to ensure the next generation of souls is brought up in pure unconditional love.

Crystal School Education Decree

As Decreed by Source, all education including higher education such as college & graduate programs will be dissolved and/or transitioned into Crystal Schools & Light Centers. Crystal School Education Decree also establishes the right of every parent and family to choose to provide homeschooling to their children in accordance with the Crystal School Education outline.

All children and adults of the United States will have free and open-source access to education material, mentorships, and learning for every sector, skill, as well as access higher consciousness information.

All schools that choose to transition into the Crystal School Paradigm must implement full training for all teachers, staff & parents (for children under 18). School guidelines and rules must fall into accordance with the principles of Universal Law &

Right Action and will be overseen by their local and state
Crystal School Councils.

Each school that agrees to transition must hold a minimum of 3
open houses for parents to discuss the transition and allow
feedback, perspectives, ideas and solutions to be discussed and
implemented in accordance with the Crystal School Outline.

Higher Education centers that agree to transition into Light
Centers will also need to undergo training and education for all
teachers & staff, as well as immediately provide transitional
classes to their students. All students may also choose to
attend Light Center education virtually.

ALL EDUCATION + CHILD CARETAKING WILL BE FREE AND WITHOUT CHARGE
TO ANY CHILD, PARENT OR ADULT.

Crystal School Vision

The Crystal Schools were created by the Divine Mother in her
wish for all children, adults & teachers, to return to their
natural states of joy, play, creativity, unity, & harmony. The
foundational principles of the Crystal Schools are Universal Law
& Right Action. Universal Laws are the guiding principles that
all Higher Selves align with, as they are the cosmic laws of
Oneness. Right Action is the principle based on self-love,
discipline, + service to others.

Our mission is to create Crystal Schools for all children &
adults to return to their child like wonder & innocence. For all
beings on the Planet to remember & embrace their inner child.
Humanity is returning to their natural state of Divinity which
is joy, laughter, kindness, service to others, synergy, co-
operation, creativity, freedom, & expression.

The vision of the Crystal Schools is to create a higher
consciousness school for the children + young adults of this
planet that are more based in love, creativity, joy and play.
Traditional schooling is based on left-brained thinking:
rational, logical, linear, and based on memorization and
testing. Crystal Schools are based on the unique energetics of
each child and encouraging them to create and play using the
right side of their brain.

Our natural state as divine beings is having full use of our
brain-a WHOLEistic brain. Our right brain is our feminine side
of the brain, which connects to Source, higher thought, creative
genius, inspiration & intuition. Our left brain is the masculine

brain, which analyzes & sorts through all of the information coming in through the right brain, and it decides what is useful & what is to be acted upon.

Due to toxins & programmings, our right brain begins to shut down after childhood. We are slowly stripped of our creativity & instead are forced into left brain only thinking. This causes us to be stuck in left brain loops of logic, analyzation, linear thinking, & closed mindedness. It is only when the right brain & left brain are working together, in unity, do we have access to our full genius & divine intelligence.

3D schooling teaches ONLY left brain thinking. Children are taught memorization, regurgitation, testing, & logical thinking. This slowly shuts down their right brain & leads to many issues that adults experience such as fear, anxiety, depression, disconnection, etc. The Crystal Schools focus 90% on right brain learning and 10% on left brain learning. Children's right brains are given time to fully develop through play, creativity, joy, unity, expression & experience.

ALL Children under the age of 21 are part of the Rainbow & Crystal Children waves. These children are very pure essences & are incarnating with very high consciousness. These children are extremely sensitive, empathetic, & intuitive. They require pure environments in order to learn, grow, & expand.

3D schooling does not fit these children & their learning styles. Each child has different ways of learning, different gifts and abilities & different interests. Children should be free to explore their interests as well as develop life skills that will encourage independence, self-love, and self-sufficiency.

Inner Child Healing

As a collective, returning to innocence and once again embodying our childlike wonder & essence is key to healing this planet. The atrocities that have occurred on the planet, from the abuse, neglect, & trafficking of children, to the abuse & suppression of the feminine, to the raping & pillaging of Mother Earth, all stem from the lack of innocence within the collective. The EGO mind strips us all of our childlike essence, and instead turns us into "adults". Cold, logical, lack of feeling, controlling, analyzing, judgment & powering over others.

In order to help the abused & suppressed souls on the planet we must first make space for the childlike essence and innocence.

If there is no place for innocence in the world, innocence cannot be found. We, as divine beings, must take the first step in healing our OWN inner child before seeking to help the external world. By healing our own inner wounds & allowing our innocence back in, we create a space for healing that can trickle out and heal the entire planet.

CHILDLIKE WONDER

Children are always in wonder and excitement. They see everything as new, interesting, and are filled with natural curiosity to learn, expand, and try new things. Only as adults do we become programmed to be robotic, routine, & to look at everything through the lense of past experiences. We become hardened to the magic of living, and instead we become pessimistic, resentful, and fearful of life. We close ourselves off from new experiences because we always expect lower outcomes.

To return to childlike wonder is to return to a state of inspiration and magic. It is to dissolve all of the belief systems which have created a fearful perspective of the external world. Fear is what deprives us of our natural creativity, openness, and wonder. Fear and belief systems are the wall that is put up between us and the limitless possibilities that exist. As we return to child-like wonder, we return to our organic sense of magic, miracles, & excitement for life.

HEALING WOUNDS

All wounding stems from childhood. Due to the programming and deep belief systems, every child is ingrained with the EGO programmed mind from birth. Other beings also can experience traumatic events, abuse, neglect or abandonment as children. Any rejection of self that was held within the parent, is inherited by the child. Parent's expectations, control, attachment, rejection, or judgment of the child cause extreme damage to the child's consciousness.

In order to heal our childhood wounds, we must hold deep forgiveness for ourselves, our parents, others, and all experiences. We must make peace with our past as it was all divinely planned to help us arrive exactly where we are. Once we let go of any underlying anger, resentment, attachment, regret, guilt, shame, etc., we are free to be the inner child again. We put down those walls and those blocks to opening our heart and

we begin to truly allow ourselves to show unconditional love again.

KINDNESS

Children are innately kind and giving, as this is the nature of unconditional love. However, as we get older, we are programmed into different beliefs such as, "kindness is weakness", "don't be too nice to people they can take advantage of you", or "treat people how they treat you. " These programmings take away our natural kindness for others and our natural urge to give to others and to help others. We become self-important, only focused on our needs, wants and desires and we become cold towards others.

Universal kindness is what unlocks the inner child within us. We have also become programmed to be unkind to ourselves. We judge ourselves, hold ourselves to high expectations, and beat ourselves up with guilt and shame. When we change the way we treat ourselves, and show ourselves unconditional kindness, we begin to radiate this out to all other beings and we once again embody our true childlike nature. We give to others, we receive from others, and enjoy helping others.

IMAGINATION

Imagination is our ability to access unlimited possibilities and to think of magical things! As children, we have not yet closed down our imagination, which is why children love to play. Play is our natural state. Play=creativity + imagination. As adults, we are stripped of all imagination and told to "enter the real world" and to "be realistic. " These are all EGO mind behaviors that keep us seeing everything in grey rather than bright colors.

Many also confuse imagination with fantasy. Fantasy is often rooted in EGO wants, needs, and desires, whereas imagination is rooted in divine thought and love. Fantasy are thoughts and daydreams that never actually manifest, thus keeping us out of the present moment. Imagination is when we bring our divine thoughts and inspirations into reality through creativity, play, and expression. When we use our imagination, we use it to dream for the highest good and for all of humanity, not for self.

AUTHENTICITY

Children are authentic, meaning they are their real selves. They have no concept of pretending to be someone they are not. They are not yet conditioned to act a certain way or speak a certain way to please others. This comes later on, especially in traditional schooling. This is when children are taught to "be quiet", "sit down", and "sit still. " They are not allowed to express themselves freely anymore, and they become suffocated by rules and judgements that forces them into putting on a mask.

Returning to our authentic selves is a process, as adults have many masks that we have worn for many years and even decades. When we imagine ourselves as children and how what we enjoyed doing, and how we expressed ourselves, that is our true self. We can often see how we are so far away from who we were as children because we stopped being authentic. We started conforming to what other people wanted and what society told us we had to be. Becoming your authentic self takes courage & requires us to rip off our masks & let ourselves be seen.

UNCONDITIONAL TRUST

Children naturally trust others, without fear. This is their innocence that is slowly taken from them as EGO's are always in fear of others. We teach children to be afraid to go outside alone, to talk to anyone that is not their parent, to never be outside at night, etc. By the time we are adults, we hold so much internal fear of the outside world, not realizing that the external world is a reflection of our internal self. As we are now transitioning out of the paradigm of pain and suffering, we must return to unconditional trust.

Unconditional trust means that we trust God and we trust love, no matter what. We trust that Source is always looking out for us and wants the best for us. We trust our higher self is always orchestrating experiences that are for our highest growth, even if they seem uncomfortable or painful. This level of unconditional trust overrides any fear we have of others and the external. What others choose to do is not up to us, and we cannot control it. By surrendering and fully trusting we take back our own power.

MOTHER/FATHER DYNAMICS

The dynamics and relationships we had with our Earth parents reflects the relationship we have with ourselves & others. Reflecting on those dynamics show us where we have Mother/Father wounds. If we have Mother wounds, we may reject our inner nurturing energy or we may cling externally to Mother figures in an attempt to fill that void. If we had a fractured relationship with our Father, we may have trouble supporting ourselves or seek external support and become co-dependent.

Healing the root of these dynamics means we take accountability for all choices and behaviors we have adopted and choose to cut chords with them. We forgive our parents for anything we feel has hurt us, and we forgive ourselves. Part of gaining the inner child back is also the ability to parent ourselves. We are the child, the mother, and father, all within. We must not only embrace our innocence, but be able to nurture ourselves, hold compassion for ourselves, and also hold ourselves accountable and responsible for our lives.

CHILDLIKE VERSUS CHILDISH

Childlike essences are often confused with childish. Childlike is very different from childish. Adults reject their own inner child because they see it as "childish", when in fact, it is not. We are often to "grow up" or "stop acting like a child."

This programs us to reject our own inner child and causes confusion within us. Childlike is the essence of innocence, wonder, kindness, compassion, playful, and open. Childish holds the energy of entitlement, brat, immaturity, and lack of accountability.

Because we, as a collective, have been stripped of our childlike wonder, we resort to childish behavior. This behavior is often enabled and even encouraged. In order to truly allow innocence to come through, we must dissolve our childish behaviors. This is why it is important to not only embody the childlike wonder, but also the internal Mother/Father. This is the holy trinity and this energy exists within all of us. As above, so below. Once we allow all aspects of ourselves to come into embodiment, we transform the lower childish behavior.

SELF-NURTURING

Children are by nature, self-supporting. When we are infants, of course we require support from our parents, however, we are internally self-nurturing. Babies with proper boundaries are able to self-soothe as well as play and entertain themselves without the need from external interference. We learn lack of nurturing through our environment. If we are neglected, abandoned, or do not have those same nurturing qualities reflected to us, we do not learn to how continue to self-nurture.

Nurturing your inner child means listening to that inner child. When we are the most deeply triggered, that is where we will find the child wounding. This is when we listen to what that inner child is telling us. By listening and holding space for that inner child to express, we allow that part of ourselves to heal. We must be patient with ourselves, hold compassion, and hold space. Once we have acknowledged the rejected parts of ourselves, they begin to become whole again.

RECEPTIVE

Receptivity is a child's greatest strength. Children are open to everything! They are able to receive with open arms, they have no resistance to things, unless they have learned it from their parents. Children are naturally curious, which is why they often get into things we don't want them to, or they often make mistakes not realizing that what they did was wrong. When you tell a child about Santa Clause or the Easter Bunny, they believe you! Because children are completely receptive to everything. They are open vessels to receiving any and all information.

This is why children absorb so much in their earliest years. They learn quickly and have the capacity to absorb information at a much more rapid rate than adults, because they are receptive. As adults, we become defensive, hesitant, afraid, and full of doubts. We struggle to receive from others whether that be a compliment, a gift, a piece of advice, or a call out. We are filled with resistance. By returning to innocence, we once again become receptive. Embrace, accept and allow all things.

PRODUCT INTEGRITY COUNCIL

ROLES & RESPONSIBILITIES

This council is made up of beings who have experience in various backgrounds of creating and/or selling products. This council is responsible for ensuring that all products of any kind that are sold or gifted to humanity are made in full integrity, and are free from harmful or toxic ingredients, and are in line with higher states of consciousness.

This council is responsible for providing guidelines and recommendations, as well as education and guidance on how to create products in love, how to raise the consciousness of the products during development and creation, and how to ensure every product is a service to humanity.

This council will be the leaders of revolutionary products and developments that are of the greatest service to humanity and are made in the highest integrity with wholeness and purity.

PRODUCT INTEGRITY GUIDELINES

Product integrity is determined on the basis of the intent of the product, the energy contained within the product, & the consciousness of the producers of the product. Everything on the planet is energy, therefore any product that we create, and every being who is involved in the creation, production, & packaging of a product effects the integrity of it.

Products include: beauty products (any product designed to be use on the skin or hair), healing products (anything designed to be ingested or used in order to help heal the physical body), apparel (including jewelry, accessories, shoes, etc.), cleaning products, or any item that is designed for the purchase and/or consumption by Humanity, excluding food or drinks.

The intent of any product that is being made for the purchase or consumption by Humanity must have one of three intentions: to heal, to bring joy, or to fulfill a need of Humanity. Any intent in the creation of a product that is not pure, such as greed, convenience, or enabling of Humanity's dysfunction, will be unsuccessful. As a product developer, the goal is always to assist humanity in some way. The equal energy exchange laws of the Universe will always bring abundance when the intention is pure and the dedication is put in.

The prices of products are a reflection of the integrity of the product. We are moving out of the system of money, but it currently is the tool of equal energy exchange. The price of any product should be equal to its true value: time and energy spent in the development & production of the product, the quality of the ingredients used, & the care taken to deliver the product in the highest form possible. There is no right or wrong "price point" for any product, but it must align with the energy of the product. If any product is undervalued it is a reflection of unworthiness, if any product is overvalued it is a reflection of greed.

It is important to ask for guidance for all products creations as to the correct price. Adjustments can always be made. However, aligned numbers are always a great place to start with products such as \$11.11, \$55.55, \$222.22, etc. The goal should always be to seek an equal energy exchange with buyers. They receive the value of a product made with love and integrity, and you receive abundance. These must be in balance, or the product will begin to fail in integrity.

The energy of the product is the most important part in any creation or developmental phase. It is vitally important that ALL beings who are involved in these processes are taught and coached on energy & consciousness. We are moving away from the lower consciousness of huge factories, machine made products, low-paid workers, etc.

The consciousness of all who are involved with creating and producing products put their energy into the products. If there is no joy, integrity, and care, then the product is filled with low consciousness that the customer now absorbs. The physical/emotional/mental state of all beings involved is the priority for creating success and healing products. If a being is angry, frustrated, worried, anxious, bored, etc., they should not be involved in the process of product creation until their energy has been stabilized.

The care put into products is also directly connected to its integrity. We have become a society that has turned to machines, robots, & automatic production. We are in fact returning to more organic, holistic & handmade businesses. This not only creates higher consciousness products, but higher consciousness employees and thus higher integrity products. Big production is no longer aligned for New Earth. Big production was created in order to maximize profits, which was a low frequency intention.

The larger any business or production gets, it must seek to maintain the integrity of its products. The model of spending less to make more is a 3D model based on lack, greed, and power.

The goal is never to "make money", but to be of service to Humanity. This ensures true abundance which is integrity, joy for both yourself, your employees, & the customer, and to truly bring about a change on the planet.

ALLOWABLE INGREDIENTS

The ingredients used in any product are also a key to the process of integrity. There are many products that use ingredients designed to make the product look a certain way, extend shelf life, or create a larger profit margin. Only whole, pure ingredients may be used in the production of any product.

There are of course, always instances where we may need to use an ingredient that is not 100% organic, and in that case, we use the Dr. Emoto Method of transforming the consciousness of the ingredient.

Any ingredient that is NOT organic or natural from Mother Earth and includes chemicals, must be evaluated by the Product Integrity Council for use in products. All animal and/or human testing regarding ingredients is not allowed. No living being will be subjected to testing of any harmful or toxic products.

This will create the shift into truly holistic and organic products.

This will also create a shift in the way that customers purchase products. Things such as beauty or holistic products are to be made to order, meaning they are not made to have an extended shelf life, or the ingredients will perish. Similarly, products that are created for durable and lasting wear such as clothing, cleaning products, or any item that is designed to be used for long periods of time (years-decades), must be built with the intention to last.

Products that are not built or created with the intention of care and integrity usually break and/or cease working after long periods of use. We are returning back to products that are created with care and lasting intentions. The 3D system of pushing for low life span of products was based on the model of repeat customers. In true reality, there will always be beings who are in need of your product at the divine timing & there is no need to try and force "repeat" business.

TRANSFORMING INGREDIENTS

In order to transform ingredients that are not 100% natural, we use the Dr. Emoto method of consciousness. Dr. Emoto focused his energy on transforming the consciousness of water, however, his methods work for any type of physical item as it all holds energy molecules.

"The extraordinary life work of Dr. Emoto is documented in the New York Times Bestseller, The Hidden Messages in Water. In his book, Dr. Emoto demonstrates how water exposed to loving, benevolent, and compassionate human intention results in aesthetically pleasing physical molecular formations in the water while water exposed to fearful and discordant human intentions results in disconnected, disfigured, and "unpleasant" physical molecular formations. He did this through Magnetic Resonance Analysis technology and high-speed photographs.

His research also showed us how polluted and toxic water, when exposed to prayer and intention, can be altered and restored to beautifully formed geometric crystals found in clean, healthy water.

Dr. Masaru Emoto put Water as a Living Consciousness on the map for the scientific world. He showed us how water is an energy capable of more than we ever imagined. The power human thoughts, sounds and intentions has to strengthen and disempower is one of the greatest discoveries of our time."

<https://thewellnessenterprise.com/emoto/>

This theory of consciousness can be applied to any and everything that we ingest, make, or create. When one practices intention and prayer with anything, it physically changes the structure of molecules. Any ingredient that holds any form of chemical or toxin can also be transmuted out of an ingredient through the intention of transformation.

A mantra that we recommend is, "I ask for all ingredients to be transformed into the highest organic ingredients, infused with Plasma Rainbow Light, & infused with healing and joy." You can also place your hands above the ingredients or products or simply send the intention out through the heart. Your joy & passion for your product creation is the single most potent energy you can infuse into your creative process. Allow your creativity & your product to keep evolving as you continue to evolve.

NEW EARTH BUILDERS COUNCIL

ROLES & RESPONSIBILITIES

This council is made of beings who have experience in building, designing, and engineering. This council is responsible for creating guidelines and recommendations on building and construction that is in alignment with Mother Earth, sustainability, and fostering unity.

This council will oversee all building and construction of New Earth to ensure that all building is done with precision, respect for Mother Earth, and incorporates nature and the elements within the structure. This council is responsible for ensuring all structures and buildings are in alignment with sacred geometry and organic design.

This council will be the leaders of constructing New Earth, creating structures that incorporate Mother Earth, & innovating new architecture & higher consciousness designs that include sacred geometry and energy, as well as renovating and refurbishing current structures into alignment.

BUILDER'S CODE OF INTEGRITY

All builders of New Earth agree to build in alignment & integrity with Mother Earth, Source, & the good of all. Any structure that is built must have the intention to provide stability, to provide a sacred space, to provide inspiration, & to provide connection between us and Mother Earth. Any intentions to build any structure or thing for money, greed, or for any other use that does not serve the greater good will be out of integrity.

All New Earth Builders hold sacred codes within them to bring harmony, balance, beauty, sustainability, & healing into their work. Working with the elements of nature, the inspiration of spirit, & the gift of bringing ideas and creativity into form through building, is an honor for all beings. All building must be done with pure connection and presence. When we do things in a rush, out of sync with the natural flow, outside of guidance from Spirit, & just to "get the job done", we create destruction rather than beauty. Consistency, dedication and the perfection of your craft will keep you in the highest integrity.

Creativity in your skill allows you to create in new ways, innovate with different techniques and forms of building that are outside the box of 3D. Sacred geometry & divine inspiration from nature are the new guiding posts for our building evolution. These sacred and aligned shapes and flows bridge the gap between humanity and Mother Nature. Divine intelligence shows us the blueprint for all manifestations to come into form.

NEW EARTH BUILDER'S DECREES

Building with integrity will entail building with sustainable and real materials. The toxic materials we currently build with are not sustainable & create illness and disease, structural risk, & damage the environment.

Building in integrity, by code, all buildings must be built with:

- Sustainable Material
 - Nontoxic, organic material
 - Recyclable material
 - Built to last
 - Intention
 - Sacred Geometry
 - Prayer
 - Creativity & Inspiration
 - In alignment with Mother Earth
 - Feng Shui
- A focus of creating harmony, space, alignment & stability

All buildings, structures, & infrastructure will be overseen by the Builder's Council. All structures & builders involved must be in integrity with the Builder's Code. If there are any violations of the Builder's Code, the Building Council will provide guidance on aligning the project with the Code.

All investors, real estate agents, & building companies will no longer be allowed to build for profit. All land is owned & given by Mother Earth and all land is inherited through intention. All givers & lovers of Planet Earth will inherit her land for the use and intention of creating stability, space for creation, & for the space to be used for its highest purpose to serve all of humanity.

ALL LAND, BUILDINGS, STRUCTURES, & HOMES, IF NOT BEING USED FOR THE HIGHEST GOOD OF ALL, WILL BE RETURNED TO THE LOVERS AND GIVERS OF PLANET EARTH. ALL BUILDING, INVESTING, & RAPING OF LAND FOR PROFIT IS HEREBY ILLEGAL & WILL NO LONGER BE TOLERATED BY HUMANITY. ALL IN VIOLATION OF THE BUILDER'S DECREE WILL BE REFERRED TO THE COURT OF UNIVERSAL LAW FOR REHABILITATION

Highest Use Land & Property Decree

As Decreed by Source, every piece of land and/or property is to be put to the Highest Use possible. Land is not owned by any being, co-operation, or group, but freely given by Mother Earth.

The larger the land, the greater the responsibility the caretaker has to provide for their community.

All uses of land MUST take into account:

- ~impact on wildlife
- ~impact on community
- ~impact on resources

All highest uses must have a greater service than any possible detriment to wildlife, community or resources. If there is any foreseeable detriment, the Builder' Council will collaborate with the caretaker to create solutions to implement including free energy, land/water cleansing, & ceremonial blessings for the land.

MOTHER EARTH COUNCIL

ROLES & RESPONSIBILITIES

This council will be the leaders of healing for the Planet, healing the leylines & activation of the grids.

Mother Earth Freedom Decree

As decreed by Source, Mother Earth is a divine conscious being who will no longer be enslaved or owned. Mother Earth, Gaia is a sovereign being who provides abundance and limitless blessings to her inhabitants and caretakers.

ALL land, resources, plant and animal life are now freed from enslavement, ownership, and greed. ALL land, resources, plants, animals, & elements are hereby granted sovereignty to live in synergy and harmony with the Galactic Beings of the New Earth.

No part of Mother Earth will be sold, bought, owned, raped, or pillaged by ANY being on this planet, or they will immediately be removed from Earth. No toxin, poison or interference will be allowed by any being to be injected into Mother Earth or her resources.

Land + Real Estate Transition Decree

ALL land, housing, + buildings will no longer be "owned" by any being, corporation or entity. All will be placed under the Mother Earth Trust locally, state-wide, and federally. Each "owner" now becomes the caretaker of the land, dwelling or structure. All housing/land may be passed via a land trust amendment, designating the new caretaker and their role.

All commercial real estate or publicly owned buildings/land MUST be transitioned into the Highest Use of such building and land to be determined by the Federal/State Councils.

All locally owned commercial real estate will become part of the County Mother Earth Trust and will be voted on by the local community as to the highest and best uses of such spaces, including which business and or services may utilize the spaces.

Every home, apartment, dwelling etc., must house a minimum of 2 beings (including children) per 2,000 square feet. If a current caretaker is unable to house the minimum amount of beings, they can pass the property onto other beings to put to the highest and best use. For example, a 10,000 square foot home would need to house a minimum of 10 beings.

Any property that resides on 2.5 acres or more, must provide a service to the local community. Examples: growing food + crops to be provided for the local community, running an at-home business that allows for in-person services, creating goods on the property utilizing the space for the good of the community,

opening up portions of the land to house beings via tiny homes, RV's, or hosting gatherings/events, etc.

No being, corporation, or entity may utilize land or housing SOLELY for profit. All vacation rentals must be approved by the Local Real Estate Council to establish a fair equal energy exchange. Hotels will remain as the main dwellings for traveling beings and families.

A Guide to Mother Earth

Mother Earth, Gaia, is a living sentient being. All planets have consciousness, just as the inhabitants of a planet do. Humans, animals, plants, elements, & any organic material holds consciousness within its vessel. Therefore, we share a consciousness with the planet as a whole.

As guests on this planet, we must respect our host. Humanity has fallen from it's unity with its Host. We have become parasitic in nature. A parasite is defined as any "animal or plant that lives in or on another animal or plant and gets food or protection from it." We have forgotten that Mother Earth, Gaia, is our Divine Mother. She hosts us, feeds us, provides all the elements for us, the land we live upon, the food we eat, the water we drink, & she provides the life we breathe. Humanity began taking from Mother Earth, without care or respect, making us a parasitic species.

By giving back to our host, we return ourselves to the oneness harmonic living model. Replenishing Mother Earth with love, care, respect & honor, she is able to give back more abundance & care for us. By reducing our waste, eliminating toxic pollution & pesticides, & by living and building in more harmony with the Earth, we become a divine ecosystem.

For everything we receive from the Earth, we return that energy back to Mother Earth through gratitude & sending love to the Earth. When we care for the Earth with intention such as prayers while gardening, harvesting food, cooking, watering our plants, etc., we create a loving relationship with the Earth.

Ceremonies are powerful tools to help heal the Planet, release trauma from the Earth, & to put love into the collective consciousness. Ceremonies can be burned, placed in the ocean, or buried in the ground.

By using sustainable products, creating less waste, & building eco-friendly homes, we use the organic elements Mother Earth

provides us which reduces the about of toxins in our environment
& allows our vessels to heal.

By being co-creators with the planet, we help create a balanced
Eco system. Growing your own food, making your own products,
blessing all of your food/land, & living in harmony with the
elementals brings us one step close to balanced harmonics.

We are contracted to protect our host, & our communities by
being conscious creators, conscious buyers, & conscious users of
all things. We are leaders & wayshowers of our children &
communities on how to be a divine, organic being who loves &
protects its Mother.

We are responsible for creating a better future through our
actions, thoughts & choices. By loving ourselves, healing
ourselves, we also heal the planet. By educating others on how
to work with the elements, the sacredness of the land, waters, &
air, we create a better understanding of our planet. Through
conscious living, we allow ourselves & Mother Earth to heal.

This will allow our climate to come into balance, our
communities to come into harmony, & for our living to become
peaceful.

All citizens are to receive their Galactic Passports declaring them a citizen of New Earth, and of the cosmos. All beings are now free to travel and visit any free & sovereign nation. All citizens are to abide by the Universal Laws of Source as well as the Divine Decrees of New Earth.

All illusionary forms of borders, restrictions, rules, control, immigration, & displacements are now dissolved.

Global Passport Initiative

THE GLOBAL PASSPORT INITIATIVE IS A PROPOSAL THAT MAY BE ADOPTED BY ANY AND ALL SOVEREIGN NATIONS ON PLANET EARTH. CURRENTLY, HUMANITY IS DEEPLY SEPERATED BY RACE, CULTURE, RELIGION, NATION & LANGUAGE. THIS SEPARATION IS FUELED BY THE RIGID RULES, AUTHORITIES, AND RESTRICTIONS UPON TRAVEL.

IF HUMANITY WAS GIVEN THE OPPORTUNITY FOR:

- OPEN TRAVEL
- FREE/ACCESSIBLE TRAVEL
- FREEDOM OF TRAVEL

THEN WE, AS ONE COLLECTIVE, COULD BEGIN TO DISSOLVE THE BARRIERS BETWEEN ONE ANOTHER.

WE CAN INTERACT, LEARN AND EXPERIENCE ONE ANOTHER AND EACHOTHER'S CULTURE WITHOUT THE DETRIMENTAL EFFECTS OF "TOURISM" AND COLONIALISM.

THE GLOBAL PASSPORT WOULD BE IMPLEMENTED AS FOLLOWS:

- ALL HUMAN BEINGS UPON THE EARTH WOULD BE ISSUED A GLOBAL CITIZEN PASSPORT
- EACH PASSPORT WOULD DESIGNATE THE BEING'S "HOME" COUNTRY, AGE, RELEVANT INFORMATION, AND PICTURE
- THIS PASSPORT WOULD BE ACCEPTED IN EVERY SOVEREIGN NATION THAT ADOPTS THE GLOBAL PASSPORT INITIATIVE

- ALL BEINGS WOULD BE GRANTED ACCESS TO LOW COST/ACCESSIBLE TRAVEL
- ALL BEINGS WOULD HAVE THE FREEDOM TO TRAVEL WITHOUT CONSTRAINT
- THERE WILL BE NO RESTRICTIONS ON THE LENGTH OF TIME OR LENGTH OF STAY FOR TRAVEL.

IN ORDER TO MAINTAIN THE INTEGRITY OF EACH NATION, EACH NATION THAT ADOPTS THE GLOBAL PASSPORT INITIATIVE ALSO AGREES TO THE FOLLOWING:

- ABOLISHMENT OF TAXES UPON THEIR HOME CITIZENS SO AS NOT TO OVERBURDEN THEM WITH INCOMING TRAVELERS
- ADOPT THE INTEGRITY CODE OF CONDUCT FOR THEIR NATION (BELOW)
- ENSURE THAT THERE IS ADEQUATE HOUSING FOR THEIR HOME CITIZENS AS WELL AS ADEQUATE TRAVEL HOUSING THAT IS FAIRLY PRICED FOR EQUAL ENERGY EXCHANGE
- DEDICATE ADEQUATE FUNDING FOR THE DEVELOPMENT OF FREE AND/OR ACCESSIBLE DOMESTIC + INTERNATIONAL TRAVEL
- EACH SOVEREIGN NATION WHO ADOPTS THIS INITIATIVE BECOMES A PART OF THE GLOBAL RELATIONS COUNCIL OF THE NEW EARTH TRANSITIONARY GOVERNMENT
- EACH SOVEREIGN NATION WILL PROVIDE AN INFORMATIONAL GUIDE TO EACH BEING TRAVELING TO THEIR NATION THAT WILL INCLUDE INSIGHTS AS TO THE CULTURE, PRACTICES, COMMUNITIES + AREAS OF INTEREST FOR VISITORS
- EACH SOVEREIGN NATION SHALL HAVE A GUIDE CENTER THAT PROVIDES BOTH IN PERSON ASSISTANCE AS WELL AS REMOTE ASSISTANCE FOR ALL TRAVELERS THAT MAY HAVE QUESTIONS AS TO AREAS TO STAY, PLACES TO SEE, AND ALIGNING WITH THE NATION'S INTEGRITY CODE

EACH SOVEREIGN NATION WILL PROVIDE A CODE OF INTEGRITY FOR ALL TRAVELERS USING THE GLOBAL PASSPORT:

- GUIDELINES OF INTEGRITY ABIDED BY ALL OF THAT NATION
- ALL TRAVELERS ARE TO HONOR + RESPECT BOTH THE HOME CITIZENS OF ALL NATIONS AS WELL AS THEIR LAND + ECOSYSTEMS
- GUIDELINES OF THE CUSTOMS/PRACTICES OF EACH SOVEREIGN NATURE IN WHICH EACH TRAVELER SHOULD HAVE AWARENESS OF
- EACH SOVEREIGN NATION MAYBE ADOPT SPECIAL INTEGRITY CODES FOR TRAVELERS WHO WISH TO REMAIN PERMANENTLY WITHIN THE NATION
- EACH SOVEREIGN NATION MUST HONOR + RESPECT ALL VISITORS AND PROVIDE WELCOME SUPPORT + ASSISTANCE
- EACH SOVEREIGN NATION SHALL PROVIDE INFORMATION AND TRANSLATIONS FOR ALL INTEGRITY CODES AND GUIDELINES
- ANY ISSUES REGARDING TRAVELERS OR VIOLATIONS OF THE INTEGRITY CODES WILL BE RESOLVED VIA A PEACE COUNCIL THAT IS DESIGNATED + SET UP BY EACH SOVEREIGN NATION
- NO TRAVELER MAY BE BANNED, BARRED, OR RESTRICTED FOR ANY REASON IN THEIR ABILITY TO FREELY TRAVEL

UNIVERSAL LAW COUNCIL

ROLES & RESPONSIBILITIES

This council is made up of beings who have experience with law or resonate strongly with enforcement of Universal Law. The Universal Laws are the cosmic codes given to us by Mother of All Creation as the Laws each human being must adhere to.

This council is responsible for ensuring that Universal Law is honored and followed by all beings residing on Planet Earth. This council is mainly assembled to answer questions or concerns about Universal Law violations and to be able to interpret and provide guidance on honoring Universal Law.

This council will serve as a cosmic court of justice that is responsible for leading the legal system into a system of true justice & fairness for all. This council will co-create on solutions and ideas for establishing a system that is based on compassion, forgiveness, justice & correction to bring harmony for all beings on Earth.

Universal Law Divine Justice Decree

As Decreed by Source, all justice systems including all Courts within the US are now to be transitioned into Courts of Universal Law & Divine Justice. All injustice, punishment, corruption, manipulation, slander, & lies end NOW. All Courts of law are now commanded to seek & execute ONLY truth, justice, freedom, and healing. All Courts of law are now based on integrity, truth, solutions, & education.

All justice system personnel are now to be transitioned into service to their community, re-educated, and ascertained as to their roles. This includes all legal professionals and personnel.

All Universal Law Councils as well as Divine Justice Court personnel will be educated and trained on the elements of Universal Law, Right Action, Forgiveness & Compassion. Courts will no longer use a monetary system, nor will any legal professionals use a monetary system.

All law schools & similar educational systems will be transitioned into Divine Justice Light Centers, for re-education and training. All information will be open sourced.

All Divine Justice Courts will work in collaboration with Peace Councils & Peace Advisory Councils, to be chosen and created by the citizens, to provide peaceful resolutions, resolution and understanding training, etc.

All Divine Justice Courts will be specifically chosen by the National Director's Council for the importance of roles are high. Each Court must display full integrity, responsibility, & forgiveness. These Courts will be in charge of the Tribunals for all who have committed crimes against Humanity.

The National, State & Local Universal Law Councils will be in charge of writing new Federal & State Decrees that are in line with Universal Law.

Open-source education will be provided to all citizens on Universal Law & the Sovereign Being Decrees.

All jails & prisons will be immediately transitioned into Soul Rehabilitation Programs within 60 days of the transition. All personnel must be educated and trained.

All police and law enforcement will also undergo training and education, as new roles and guidelines will be outlined by the Peace Councils at the National Level.

The Court of Universal Law Transition Proposal

The Court of Universal Law is a Global System to be implemented as the transition from punishment & judgment based legal courts, into a soul alignment system. Our mission is to transition the current legal system of duality, punishment & judgment, into a system that seeks to rehabilitate the soul back into alignment through love, forgiveness & compassion. The Court of Universal Law holds these principles along with Truth & Justice as the way of assisting all souls outside of Universal Law back into alignment.

Universal Love means we love all beings on Planet Earth unconditionally. We love them without judgment & we see all beings in their higher. We seek to bring understanding, clarity, kindness & harmony.

Forgiveness means that we do not hold onto any "wrong doings", nor do we seek to punish or gain revenge on those who have acted outside of Universal Law. We forgive others as we forgive ourselves, with the understanding that we are evolving out of the human programming.

Compassion does not mean we enable actions outside of Universal Law, but we show compassion for those beings who have become out of alignment with their soul. We show compassion & empathy as we allow others to learn their lessons & receive their soul growth.

SOUL ALIGNMENT PROCESS

Our goal is to eliminate shame, guilt & punishment from the legal system. These frequencies do not allow beings to transform, learn & grow from their experience. Instead, we will provide a space for vulnerability, compassion, accountability & the opportunity for the soul to re-align themselves through service to others.

Any soul who has acted outside of Universal Law & caused harm or destruction, will be educated and given the awareness on why and how the actions/choices have violated Universal Law. The being will be educated on Oneness, Self-Healing, & forgiveness.

Each being who has violated Universal Law will be required to take accountability for their actions/choices through written letters of accountability & reflection, which will be shared for all to be able to read and learn from. If the violation involves other beings, those beings will also be involved in the process of accountability & forgiveness.

Service is the greatest way to anchor a soul back into alignment. Any violator of Universal Law will be guided to specific services to their community & humanity to be completed to give them the opportunity to return to Oneness as well as to find their joy in giving to others

LIGHT CENTERS

Our vision is to have each soul fully rehabilitated & re-aligned so that their experience can serve to help others, & each being can be of assistance and service as a mentor for other souls to learn about Universal Law & be supported in their process of rehabilitation. This creates a healing cycle & allows more compassion & empathy between Humanity.

All souls who violate Universal Law will be seen by the Court of Universal Law & guided to a Light Center for soul rehabilitation for an agreed upon amount of time. Here, the soul will receive the education & training in order to obtain the soul growth and the lessons.

As part of the being's process to rehabilitation, the soul will go through the accountability & forgiveness process. Each being will also be led through a soul healing process to release any remaining grief, anger, resentment, self-hatred, fear, etc., remaining in their programming.

Each being will be guided to the specific service to community & Humanity that they must complete as part of their rehabilitation process. This process will include self-discovery on what gifts, passions & talents the being has that can be used to assist others. Each being will also be guided on how they can best assist others in their soul lessons and how to teach from their experience.

SOUL REHAB CENTERS

All Jails/Prisons will be transitioned into Rehabilitation Holding Centers. These centers will be held to the standards of integrity to preserve the respect & kindness that is the right of every human being. These centers will treat every being as their higher self & will simply act as a care center before the being can be seen in the Universal Court of Law to be heard, educated & then transferred to a Light Center for healing. Those that have NOT violated Universal Law, but man-made law, will be released immediately. Those who have been found to violate Universal Law, will transition into healing centers.

The new system of Universal Courts of Law will be implemented first through training programs. All employees of the legal system including Judges, Lawyers, Assistants, Police Officers, Jail/Prison personnel, will all be required to attend training on the Universal Laws & the guiding principles of the new system. The entire system will be overseen by the Universal Law Council to ensure the new paradigm principle are Implemented properly.

All current legal & criminal/civil systems will be dissolved. Police officers will be transitioned into Peace Officers & their role is simply to assist Humanity by investigating potential Universal Law Violations & bringing any violators to the Universal Law Rehabilitation Holding Centers. No violence, manipulation, or aggression will be tolerated.

Peace Keepers are there to assure all potential violators that they will be heard, educated & healed, not punished or controlled. All civil court systems will also be dissolved & issues or conflicts that involve two beings or more that are not

in violation of Universal Law, will be referred to the Peace Council for resolution.

Implementation Phases

Phase One

The implementation of the Soul Rehabilitation Centers will take priority as we remove beings from the prison/punishment system. Immediately, training programs will begin within the current facilities so that each being may begin their healing.

In addition, limitations and prohibitions within these facilities must be removed. Resources will be dedicated to providing each being clothes, self-care packets, organic food, self-discipline supplies, 5D technology, etc.

Phase Two

Building and development of Soul Rehabilitation Centers to replace all 3D prison systems. Training & Care will be implemented immediately into these Centers to prepare for the transition of all beings still working through their alignment.

Hiring & training of guides & teachers for the centers will take place to ensure the highest integrity and compassion by all workers.

Phase Three

Training & education for all police who will become the enforcers of Universal Law as Peace Keepers. These beings must pass through initiation to ensure they are upholding Universal Law as well as upholding the laws of love.

All Courts will be replaced by Universal Law Councils & healing guides who will be trained and educated on the proper systems of healing & understanding.

Soul Alignment Program

Phase One

In phase one of the soul alignment, guides must inform the misaligned being which of the Universal Laws their actions or behaviors violated. It is the role of the guide to hold the utmost compassion, patience, tolerance, & also boundaries with the misaligned beings. It is vital that the being understands how and why their actions and behaviors violated Universal Law, and then educated fully on all of the Universal Laws & the foundation of Oneness and Karma.

Phase Two

Phase two begins after the misaligned being has been fully educated on the Universal Laws. Now, it is the guide's role to hold an open space to learn about the misaligned being's Earth experience. It is important for the guides to understand what programming is present, childhood wounding, & traumas.

Phase two will be the longest of the given phases as this requires a deep level of healing. There is no time frame or limit to the length of time it shall take for the misaligned being to go through their healing process. This will include:

- Awareness & Dissolvment of Programming
- Healing of wounding, trauma, grief, & heartbreak
- Dissolvment of shame, guilt, & victim consciousness
- Dissolving fight or flight

Phase Three

Phase three begins after the being has fully gone through the healing process & allowed their body to integrate. Phase three involves returning the being to full feeling. This will include a lot of physical healing work as well as inner spiritual work.

Each being will receive assistance with releasing of the traumas and lower vibrations from the body through yoga, chi gong, healing massages, cleanses, & plasma healing. This is a vital phase of the beings recovery and returning them to full feeling, allowing them to feel the oneness that is present with all of humanity. This assists them with gaining their intuition, compassion & discernment.

Phase Four

Phase four begins once the being has anchored in full feeling. Phase four is the self-love phase, where the misaligned being will be given tools, techniques & spiritual disciplines to implement to help them anchor in their self-love. This phase is important as self-love is the key to truly healing & being able to hold unconditional love for others.

Each being will be guided on worthiness, lack of judgment, & self-nurturing. Each being will learn the art of self-care physically, emotionally, and mentally. They will spend moments anchoring in their spiritual disciplines such as mirror affirmations, automatic writing, & ceremonies.

Phase Five

Phase five is the final state of the program. This phase begins once the being has shown consistency & dedication in their self-love disciplines. Phase five is focused on sparking the being's creativity & passion, nurturing their inner child, & assisting them in finding their role and purpose.

The guides will be responsible for assisting in holding space while also communicating with the being about what their passions are, what their skills are, & assisting them with discovering their purpose & role so that they may be of service when they leave Soul Rehabilitation. This phase can take any amount of time, & will include a free space for the beings to play, create & try things!

Each being will have the opportunity to do anything from dance, singing, learning healing techniques, painting, musical instruments, woodworking, etc. This is the time for these souls to remember what they love & bring out their inner child!

Release to Service

Once the misaligned being has completed the program, they will be transitioned back into service in their community. Each misaligned being will be assigned a transition guide, who will assist them in finding ways for them to be in service to others and to transition back into the community.

The transition guide will be in contact with local councils & ongoing local projects that each being may be in service with or join. The transition guide will exert no control, force, or expectations onto the being but is simply there to assist if needed.

PEACE COUNCIL

ROLES & RESPONSIBILITIES

This council is made up of Peacekeepers and those who feel a strong resonance with mediation. This council is responsible for ensuring peace between all beings, communities, societies and collectives. This council works closely with the Court of Universal Law to ensure that all beings on Planet Earth are abiding by Universal Law and all disputes or disagreements are resolved peacefully.

This council is responsible for overseeing all disputes between any individual or group of beings. This council has many fractals and representatives from each Society. Any dispute or disagreement between beings or collectives will be brought to the Peace Council for guidance and resolution.

This council will meet regularly to discuss new tools, techniques. This council is also responsible for full transparency and sharing all disputes and their resolutions so that all may learn through the process.

This council will be the leaders in holding peace on the Planet and being the examples for Humanity by holding space & creating resolutions and solutions.

This council will also lead mass meditations as well as consistent group meditations amongst the council to assist in stabilizing our Planet in times of turbulence or conflict.

Peace Code

Peace is a blissful vibration that dissolves all internal + external conflict. Peace has not been able to be anchored in on Planet Earth due to the excessive vibrations of conflict.

Humanity embodies internal conflict via the following:

- *Conflict between the internal masculine + feminine energies
 - *Conflict between the mind + the heart
 - *Conflict between self-accountability + external blame/projection
- *Conflict between the soul + the human personality
 - *Conflict between emotions + thoughts
- *Conflicts between self-love/acceptance + outer conditions/belief systems

Due to the levels of inner conflict within Humanity, this creates outer conflict between beings, communities, nations, + collectives.

This has resulted in deep conflict between:

- *Masculine + Feminine
 - *Religions
 - *Races
 - *Nations
- *Right + Left

In order to dissolve all conflict on Planet Earth, we must first embody peace WITHIN. As we heal our inner conflict with self, all external conflicts naturally + organically come into resolution. Peace is a vibration that all of Humanity must learn to embody.

On the vibrational scale of emotions, all emotions under 200 operate as lifedraining frequencies. When we hold onto these emotions, not allowing them to process and transmute, we stay in a lifedraining state which creates pain, illness + disease. When we allow these lower emotional states to dictate our choices, behaviors + responses, we create external conflict and dysfunction.

Peace vibrates at level 600, which is just above the vibration of unconditional love at 500. All of Humanity is working towards embodying + anchoring in these higher emotional states in order to transmute all of the life-draining frequencies on the planet.

The Peace Council is made up of beings across the Planet whose mission + soul purpose is to bring peace + resolution to the conflicts within Humanity. All of Humanity is responsible for learning to process + transmute their lower emotional states, and to resolve inner conflict. The Peace Council Members work as guides + meditators to teach and guide Humanity through inner + outer conflict resolution and healing. By utilizing tools for processing emotions, taking accountability, + transmuting all conflict into peace, we will cleanse the planet of all dysfunction.

Resolving inner conflict begins by acknowledging the different aspects of self that are seeking love, acceptance, + harmony.

The first step is discerning whether there is an EGO want/need/desire that is in conflict with the soul. The next step is discerning whether there is an inner conflict between the inner masculine that seeks to DO and the inner feminine which seeks to BE The next step is discerning whether there is lack of accountability or blame/projection occurring due to wounding.

The next step is to discern if there is a conflict between what you are thinking + what you are feeling The next step is to discern if your human personality + patterns is in conflict with what the heart is calling for you to do/express The final step is to discern whether there is a conflict between parts of self that are seeking to be accepted/healed/integrated + external belief systems or judgment Once these have been discerned, we move onto using the tools + techniques in order to dissolve all conflicting energies and distortions before moving into harmonization and resolution with another being or beings.

The following tools + techniques can be utilized to resolve and heal inner conflicts:

- *Take full accountability for all of your thoughts, emotions, reactions, blame + projections

- *The next step is to cut chords with all EGO thoughts, wants, needs + desires and re-attach all chords to unconditional love

- *The next step is clear your energetic field through breathe work, grounding + centering yourself into your heart

- *Forgive yourself, all others + all experiences

*Finally, connect to your higher self and ask for guidance on what the best + highest outcome for all involved in any external conflicts

Peace is a natural by-product of dissolving all inner conflict with self, + all conflict between self and the external world. The more we each take accountability for creating our own inner peace, the greater our ability to dissolve all external conflicts. To anchor in peace, one must practice the self-love disciplines, learn to discern the state of inner conflict + work to heal + harmonize it. One may also practice the art of meditation + conscious breathe work to focus on anchoring and feeling the vibrations of peace within the body + cells. The greater amount of peace we can cultivate, the more peace we anchor in on Planet Earth.

SYSTEM TRANSITION TIMELINE + IMPLEMENTATION

The following are a collection of my ideas, thoughts + solutions of how the transition could be accomplished in the most seamless and harmonious ways.

Step 1

- Establish the National Director's Council + Advisory Board and Integrity Panel to immediately begin implementing all decrees and initiatives.

- Instate the New Constitution as well as the Sovereign Beings Decrees, Universal Laws, + Divine Decrees.

- Dissolve the IRS + Federal Reserve. Both of these entities have been used to financially enslave the United States of America and its citizens.

- All printing and distribution of money will be implemented by the National Treasury. Immediately evaluate the current National Treasury Fund and cease all funding of agendas, nefarious projects, and/or projects that do not service the citizens of the USA.

- Forgiveness of ALL debt including: National Debt, State Debt, Local Debt, mortgages, credit cards, medical debt, loans, etc. This will dissolve many industries immediately, such as the lending industry.

- Dissolvement of ALL taxes including local, state, federal, property, and automobile taxes.

- Implement a fixed rate sales tax for goods + services, within reason and to be discussed based on industry and localization.

- Set up State Treasuries for every State to have enough funds to care for their infrastructure and state overseen and/or funded projects. Federal Treasury will disperse necessary funds to each State based on need.

- All goods + sales taxes go into the State Treasury. Determine market caps for goods + services taxes in order to dissolve all competition and price fixing.

-All State Treasuries disperse money to County Treasuries based on their required amounts for wages + payments of all healing centers, education centers, service centers, and utilities for including electricity/water for the citizens.

-Federal Treasury is reserved only for the funding national projects that are highest and best for the entire collective. No funding will be further allowed for any projects, jobs or wages that do not serve the people of the United States of America.

-Create a fixed wage system across all industries. Example: Minimum wage for any job can be no lower than \$50 per hour, and the maximum wage for any job \$250 per hour. The minimum salary for any job is \$100k, and the max salary for any job is \$500k per year.

-Full Time is set at a maximum of 4 days per week, 5 hours per day.

-ALL beings living within the United States must dedicate their time to the Ascension Program which includes inner healing, dissolvment of EGO programming, development of Higher Self, etc., for a minimum of 90 days. This inner work is required for every being over the age of 12.

Step 2

-All land, homes, dwellings, and commercial spaces are now held under the Mother Earth Trust. Homeowners + landowners must register as the caretakers of their property, and all property/homes may be passed onto new owners by designating the new caretaker.

-All property must come into alignment under the Highest and Best Use Decree.

-Begin rehabilitating, renovating and/or restructuring all current infrastructure, buildings and dwellings to best serve the whole and provide housing for every citizen of the USA.

-All farms that provide goods and produce to their local communities or states will be funded by the State Treasury. Community farms will operate on a self-sustainability and equal energy exchange model.

-All commercial real estate properties must take a vote within their county as to the highest and best businesses to reside there that provide the greatest amount of service to the community.

-All electricity + water utilities will be paid for by the State Treasure.

-All beings who are without housing or a place to reside will register with their County Community Real Estate Center who will assist with placing them either into empty houses, apartments, etc., or connecting them with homeowners who are looking to pass on their property, or landowners who are founding communities and have the space allowable for others to live inside their dwelling, purchase tiny homes, RV's, build, etc.

-All beings who are without jobs/roles will also register with their County Community Center who can connect them with open roles and jobs. All jobs, businesses, entities etc., will be provided with training on running 5D businesses, hiring, employee training, etc.

-Dissolve all education + experience requirements for jobs. If experience is required, the job must provide specific training for the role.

Step 3

-All 3D medical facilities will transition into healing centers, and 3D medical intervention will be reserved for emergencies and/or surgical interventions. All wages + maintenance of such centers will be payed for by the State Treasuries.

-All local healing businesses will also be funded by the State Treasury, ensuring that all healing + medical treatment is free for all beings.

-All schools will transition into Crystal School models + will be funded by the State Treasury.

-All colleges + Universities will transition into Adult Crystal Schools and will be funded by the State Treasury.

-All childcare + elder caretaking will be transitioned into 5D caretaking and will be payed for by the State Treasury.

-Any business/industry that is not funded by the Federal or State Treasury may operate within their own Equal Energy Exchange structure, or they may operate as a Non-Profit Trust which can receive federal donations and/or donations from the public at large if they are providing services to a portion or all of the country. All spending from non-profits must be disclosed publicly.

Step 4

-Transition all corporations into co-operations through training + restructuring. No co-operation will be funded by State or Federal Treasury but must operate off their own Equal Energy Exchange system.

-Transition all remaining government systems and departments into Councils + implement all industry decrees. All employees who are not a vibrational match to the NETG will be removed and return to their local communities to find service roles or jobs.

-All beings who cannot physically or mentally serve in a role or job will be placed into a mentorship program with the goal of rehabilitation. All services will be provided and each being will receive the minimum wage until they can be rehabilitated into a role of service or otherwise.

-Legal System + Judicial system will be transitioned into public service including lawyers, judges, police officers, etc. These systems will be transitioned into the Universal Courts of Law and Divine Justice, as well as Peace Council Courts.

-All beings who currently reside in either a jail, prison or mental institution will be guided through the Soul Rehabilitation program and then transitioned into community living that provides them with roles and/or transitioned back into public service + housing.

Step 5

-Transition Global Relations into a global co-operation model through the Global Relations Council

-Transition all other government systems remaining including State and Local Councils.

-Transition all other industries remaining.

-Federal Funding projects: National Transportation Systems, Global Passport Initiative, and Global Technology Fund (free energy distribution).
