

A GUIDE TO MOTHER EARTH

Mother Earth, Gaia, is a living sentient being. All planets have consciousness, just as the inhabitants of a planet do. Humans, animals, plants, elements, & any organic material holds consciousness within its vessel. Therefore, we share a consciousness with the planet as a whole

Mother Earth Council 

UNITY CONSCIOUSNESS

GAIA

OUR HOST

As guests on this planet, we must respect our host. Humanity has fallen from it's unity with its Host. We have become parasitic in nature. A parasite is defined as any "animal or plant that lives in or on another animal or plant and gets food or protection from it."

We have forgotten that Mother Earth, Gaia, is our Divine Mother. She hosts us, feeds us, provides all the elements for us, the land we live upon, the food we eat, the water we drink, & she provides the life we breathe. Humanity began taking from Mother Earth, without care or respect, making us a parasitic species.

Gaia

HONORING OUR HOST

By giving back to our host, we return ourselves to the oneness harmonic living model. Replenishing Mother Earth with love, care, respect & honor, she is able to give back more abundance & care for us. By reducing our waste, eliminating toxic pollution & pesticides, & by living and building in more harmony with the Earth, we become a divine ecosystem.

GIVING & RECEIVING

Gratitude

For everything we receive from the Earth, we return that energy back to Mother Earth through gratitude & sending love to the Earth.

Ceremonies

Ceremonies are powerful tools to help heal the Planet, release trauma from the Earth, & to put love into the collective consciousness. Ceremonies can be burned, placed in the ocean, or buried in the ground.

Intention

When we care for the Earth with intention such as prayers while gardening, harvesting food, cooking, watering our plants, etc., we create a loving relationship with the Earth.

Sustainable Living

By using sustainable products, creating less waste, & building eco friendly homes, we use the organic elements Mother Earth provides us which reduces the amount of toxins in our environment & allows our vessels to heal.

CONTRIBUTION

By being co-creators with the planet, we help create a balanced Eco system. Growing your own food, making your own products, blessing all of your food/land, & living in harmony with the elementals brings us one step close to balanced harmonics.

THE CONTRACT

We are contracted to protect our host, & our communities by being conscious creators, conscious buyers, & conscious users of all things.

We are leaders & wayshowers of our children & communities on how to be a divine, organic being who loves & protects its Mother.

Education

We are responsible for creating a better future through our actions, thoughts & choices. By loving ourselves, healing ourselves, we also heal the planet.

By educating others on how to work with the elements, the sacredness of the land, waters, & air, we create a better understanding of our planet.

Through conscious living, we allow ourselves & Mother Earth to heal. This will allow our climate to come into balance, our communities to come into harmony, & for our living to become peaceful
