Agriculture and growing council

This council is made of true nature-lovers that have a passion for gardening, growing food/plants and agriculture.

We meet regularly to discuss and share with humanity a way of living in symbiosis with Mother Earth and in accordance to her truth and wisdom.

We honor and respect our host, universal law and the equal yet individual roles we all have!

**This council secures the planet Earth=Eearth
through rehearting, learning and teaching life
WITH Mother Earth, not living off of her. Always
giving back a little more love, water, care..**

**We also strive to educate humanity about the
healing powers of plants, flowers, herbs,...
And to share how to grow our own food, how to
garden and work with the Earth together!**

We are ONE with our host and Mother, Earth = Heart.
This council is here to assist humanity to reheart
living in the organic flow of creation, with nature.
learning patience to allow Mother Earth to grow in
her Magic abundance for us, rehearting gratitude for
every blade of grass, strawberry, tree and every little
seed and become again our true BEing as one part of
this realm, connected to every other part!

The Agriculture and Growing Council is always keen to discuss new recommendations and guidance. We do and share experiments of sustainable growing, including 5D technology like GANS / Plasma water and Plasma pyramid units.

We are moving away of quantity, back to quality - life quality bringing agriculture benefitting the planet-nature and us in harmony!

ACTIVITY

To grow a garden, you will have to have A LOT of time, strength and water. Pulling weeds, trimming, watering, harvest.. it all is part of a garden!

Let's start small and built a garden for your window!
For this you require something like a tea cup, drinking glass, old coffe container, a plastic bottle (that can lay safely on its side) or anything else you feel your plants want to grow in!

We also have to have soil, a small bag from the store or a bucket full from outside, and SEEDS.

A great window plant is cress, easy to seed and yummy on a sandwich or salad. You can bsially use any flower or herb seed.

Fill your unique planting pot with soil, press a hole with your finger in it and drop the seed! Now make sure it gets enough sun and LOTS of water.

This is your new spiritual discipline, check your seed and soon sproutling every day twice, care with water and loving words and watch Moms Miracle grow!

CRYSTAL SCHOOL COUNCIL

**Through the Crystal Schools and Light
Centers, we are anchoring in Unity,
Unconditional Love and Universal Laws into
physical manifestation.**

What would you say is your favorite part of school?

Many children would say play time/recess or even Home time!

Crystal schools are very different from normal traditional schools in that children don't just sit in front of the desk and practice their letters or read books to learn about the world around them.

There's much more to learning than reading and writing in a classroom.

Crystal schools is about exploring the energies around you and connecting to different realms that may not be visible or obvious. It is learning about our connection with everything including our angel guides, the connection we have with nature and the cosmos.

It's recognizing that there is magic everywhere and that we have so much creativity that we can create anything we want when we put our hearts to it.

It's recognizing that there is magic everywhere and that we have so much creativity that we can create anything we want when we put our hearts to it.

We learn about truths such as spiral patterns in flowers that are also patterns within our bodies, in the water eddies, or in the vast multiverses. This pattern is called the Fibonacci Sequence.

We practise the ability to speak with nature and animals through heart telepathy. We also learn about boundaries and discipline, not to mention having lots of fun while we learn!

The Council is responsible for training parents and teachers in how to implement these truths into a learning environment for both children and adults. We are also responsible for bringing new ideas together as a community and making them happen here in the physical.

Light Centers are the adult version of crystal schools. We all have to learn the secrets and truths of this beautiful planet Gaia and her surrounding multiverses. Mother Nature supports our soul growth and all of life. It is important to learn about her and bring her into our hearts.

The Elders Council

A BRIDGE BETWEEN
GENERATIONS

The council of / for the elders combines the Elders themselves to share from their experience, ancient wisdom, as well as younger brothers and sisters, adults that found their heart & passion and are here to assist them.

growing together

Especially the older generation is here to share their wisdom with us, that they gained through experiences, we never had, in times we haven't been living.

It can be a beautiful equal exchange in keys, younger generations can assist for example with access to information through technology.

The council meets regularly to find solutions for caretakers and everyone contracted to assist the elder population to wake up and ascend themselves.

We guide to a way of living together in unity and harmony, compassion and JOY.

healing eternally

No matter what color skin you have, where you are from, what languages you speak or to which generation you belong:

Mother God loves all of you unconditionally and so do we. That is why this council has focus on bridging the gap in between and allow LOVE = creation to fill them with joy, child like wonder, wisdom, growth and LIGHT.

The older a BEing is, the more programming they took on. So two of the keys to help unlock the harts of the elders is compassion and patience, their time runs differently.

On the flip this is a great gift that comes with caring for older human angels, we learn to slow down and listen.

Elders council activity

There are many things that are very different between the generations and there are many similarities!

This is a game to find out how much do we have in common and what that is.

Feel into what it is that you have in common with someone younger/older than you

Find questions in your heart that that can be answered by the other with yes and no.

You might find a game you either really love to play or have never played before, NOW is the time to explore together and find what brings us JOY!

HEALING & WELLNESS *Council*

Imagine a world where there are no more
hospitals or doctors and nurses.

Did you know that we can actually heal
ourselves and stay in the vibration of love so
that we are not affected by harmful
substances around us?

Some of the medicine that we get right now from the doctor are not always good for us. Tylenol or Paracetamol for example have toxic ingredients such as Acetaminophen, which can cause liver damage when you consume too much of it.

Right now there are many harmful substances in pharmaceutical products. This is also true for cosmetic products such as sunscreen, and in the food industry. For example, MSG (Monosodium Glutamate) is in most junkfoods to make it yummy, but studies have shown that MSG causes illnesses such as diabetes, asthma, and strokes.

But times are changing!

Instant healing can occur on many levels such as on the physical, the emotional and etheric body. We all know by now that we are made of Energy. This thing you can't see but you can feel. We can command these energies (or atoms) into right action and healing.

We can heal ourselves; this is something that the body has always known to do, except we stopped remembering that we could do that.

This council is responsible for reheating humanity of their super energy powers. We will help not only teach them how to use organic healing tools such as self-healing through the hands and intention but also introduce them to natural medicine such as herbs, essential oils, Marijuana and Colloidals that contain metal our body needs.

Fun Fact:

Did you know that dandelions, even though it is considered a weed, contains many healing properties.

From root to flower, dandelion are highly nutritious plants, loaded with vitamins and minerals. Consuming dandelion promotes a healthy liver. We need our liver to get rid of toxins in our body.

Activity:

Rub your hands together for a minute so that it creates heat between your hands. Now pull them apart slowly and pretend that you are holding a ball between them. Bring your hands closer together slowly. Do you feel the energy between your hands?

Massage someone! Get a family member to sit down. Grab some oil (organic coconut oil is best) and massage their hand or arm. Now massage their neck and shoulders. Get them to massage you. Take turns and see how it feels.

Go check out your garden or go for a walk in nature. Is there a plant or flower you can see that has healing properties? You can research what that plant or flower can do to help heal you.

MEDIA AND COMMUNICATIONS COUNCIL

What Is Technology?
Technology - Things created by humans to make things easier. They are tools to solve problems. For example, cell phones and bicycles.

What is Media?
Media - Ways of communicating that can reach large numbers of people, such as newspapers, radio, Internet and television

What is Communication?

Communication - is the act of giving, receiving and sharing information.

**WHEN YOU PLAY GAMES ONLINE SUCH AS ROBLOX,
YOU ALSO HAVE A WAY OF CHATTING WITH
YOUR FRIENDS ONLINE.
THIS IS HOW WE SHARE INFORMATION THESE DAYS,
THROUGH VIDEO CONFERENCING OR TEXT MESSAGING.**

***In the past, tribes used to use fire to communicate
between them to alert fellow tribes far away of
the possibility of danger.***

**Social Media platforms such as TikTok
allow you to use technology to share
something with lots of other people.**

We have a responsibility to share truths and do what's right, even if it's hard to share sometimes. To express openly and speak your truth is a God given right. Media and Communication go hand in hand and can be used for higher purposes such as spreading the truth.

**This Council will be made up
of leaders in self-expression,
communication, and art
through vlogging, live
streaming, movies,
documentaries and shows.**

ACTIVITY:

TRY A NEW FORM OF EXPRESSION AND RECORD IT OR STREAM IT ON SOCIAL MEDIA. YOU CAN WRITE A POEM, DO A PAINTING, TRY A NEW RECIPE OR SING ONE OF YOUR FAVORITE SONGS.

Mother Earth Council

Planet earth = heart is the HEART center of creation. She is our host, our best friend and a living BEing like you and me. We can live in peace and harmony with Mother Earth and create a sacred space of gratitude and LOVE. That is what this council is for.

Mother Earth helps us to ground, she provides us with water, air, fruit and vegetables. Even housing can be easily provided by our host.

It is important to synergize with her under universal law. Honoring equal energy exchange, living in respect, gratitude and giving from the heart.

We can assist with our energetics in the healing of Mother Earth. through prayers, ceremonies, water blessings, walking meditations, physical activities, and much more..

*This council is living
in the truth of, and
sharing awareness
about our true
connection with
Mother Earth,
we are ONE.*

*We are feeling a
special connection
with her and the call
to BE LOVE in
action by healing
mother earth
together, where ever
we are on the planet,
we join the light grid
of New Earth.*

*The Mother Earth Council ensures the our host is
cared for with respect, gratitude and LOVE. We
create guidelines and recommendations on how to give
back, replenish and heal our host.*

*We are hear to assist humanity with guidance on
how to live with the high vibrational energies of
New Earth = Mother Earth = unconditional LOVE
and heal her and us together.*

Mother Earth Council Activity

- there are many activities like pulling cabal-weeds, watering the garden, picking up trash, barefoot walk through nature, growing food, meditating with trees, ...

Can you feel into more activities connected to Mother Earth? Create a grand list!

- Now let your heart guide you to any activity, connect with Mother Earth and enjoy one a day!
- feel into breathing, it strengthens your heart centeredness
- share about our connection to mother earth and how we can practise gratitude and respect to our host with others!

Builders Council

Keeping the structural integrity of New Earth

We are the alchemists of physical space; bringing structural integrity from the heart. The Builders Council is a five room house of beings that put their energies into the sacred space, sacred materials and sacred elements of New Earth.

one: see + feel + frame

two: practice + fail + master

three: measure + calculate

four: build + destroy + transform

five: narrate + chronicle

Builders see our current model for architecture needing reformation in how connected the structure is to the world and beings around it.. Currently, buildings are parsed out to those who would like to profit. We build for God + Earth + Beings inside and out. Full autonomy is not parallel with architecture + believe that all beings have the right to safe shelter for work + rest + a space to be with God.

1

SEE + FEEL + FRAME

We are sensitive to the space + structures (organic + being-made) + materials around us. Builders embody endless respect for architecture + their stories. We see structures as beings and give our hearts to the life cycles in Now and New Earth. We are the eyes + hearts of the physical + sacred frameworks. Builders use their hearts and hands to concoct plans to create a secure and energetically balanced structure. Builders will provide the blueprints and manpower after seeking inspiration.

2

PRACTICE + FAIL + MASTER

Builders are innately disciplined + comfortable with both failure and success in their works. Builders are scientists of New Earth with a keen eye for subjects + experiments + conclusions + solutions. We gravitate toward crafts and trades that align with the variety of needs to erect a sacred space. The skilled Builders are in a consistent state of attempting to master their craft.

3

MEASURE + CALCULATE

Builders are meticulous at keeping our floorboards level + predicting safety measures. Being in the heart and senses are the inspiration. Builders will springboard from that toward making notes while considering the whole Earth and its response to the structural concept before it manifests. Measuring + calculating consists of archivable blueprints which is breadth of archivable materials used.

4

BUILD + DESTROY + TRANSFORM

After sorting out the energy behind the structure + carefully gathering materials + blueprints, the builders....BUILD. We oversee + dig into the whole process of the architectural lifespan as long as our bodies can access it. The buildings + the space it is allotted to will have a beginning, middle and end. The builders are part of the creation, destruction + transformation of the structures of New Earth.

5

CHRONICLE

Builders maintain the final tenet in the life of a structure by recording its stories. We have a vast archive of sketches + blueprints + photos + logs of spatially relevant story arcs big and small on the land or inside the chapters of rooms + the maintain of the physical elements. The job of the builder never ends with the wrecking ball but with sealing the story of the structure with honor and sweat.

A Builder's Poem

A House

First, there was breath. The divine Wind/spirit. Aleph, the first letter of the Hebrew alphabet.

The second letter of the Hebrew alphabet is the letter Bet and represents the number two in gematria. The letter Bet derives from the pictograph "PR" in Egyptian Hieroglyphs which, visually, exhibits a two dimensional shelter, tent... a home. Two walls facing each other and both the support beams for a mutually protective shelter. In the beginning was God's divine breath, and, inside that beginning was a divine home. Two torahs; oral and written. The seen, the unseen. Living Dead. Female and male. Ether and Earth. Dark, light, not working in opposition but in harmony and balance, cooperatively keeping the structural integrity.

The first word in the torah is "bereyshit". Three letters that make up Bereshit, Bet, Rosh, Shin. Bet means House. Rosh means Head. Shin means The Almighty. God is the head of your house, regardless, of how many times you recalculate the blueprints. Are our bodies the homes to our spirit? Our home as human beings? Is our home our body? Bones, lumber, plumbing, circulatory system, the nerves, the current. Does the house of our spirit start at the head and end at the toes? Does your home stay static? Is it fixed or kinetic? Whatever your definition of home is, the acreage is massive, it's all yours to build upon as it is all God's gift. Is God the head of your house? Is your angel spirit a part of the whole heavens, the home of angels, crowded with Elohim? "Where are you from? Where is home?" Probably, the primordial waters from mythological chaos.

We are in god's house and showing respect and gratitude for her work building this baby planet and hosting is shown by expression from the holy body that houses our spirit. The space between everything and everything is her divine wind, breath. A blanket for our odysseys.

**There is a pounding in the earth like a one ton wrecking ball bell heartbeat, shaking our frames
A mile circumference of alarm and pleas to keep the structure together. While we renovate, rearrange, reinvent our houses. It is a lucky wave of change for hollow rooms filled with both breath and body, imaginary foundation to solidify from dream to concrete, Muddy, windows soaped and polished.**

With each blow from the compressed dust Earth's heart, Our frames grow and grow wearing armored plaits of compassion and vulnerability hoping to be gutted and rebuilt as many times as the house of our spirit wishes. Our doors got tired of staring static at the fence letting things into our bodies and spirits that rust. Will the newest blueprints call for another one ton wrecking ball bell?

Probably, but, the good ones have a lighthouse of transcendence at their heart. Their houses, immaculate, unshakable and indestructible.

*When things change
inside you,
things change around
you.*

*FOR
Council*

This council is made up of Peacekeepers and those who feel a strong resonance with mediation. This council is responsible for ensuring peace between all beings, communities, societies and collectives. This council works closely with the Court of Universal Law to ensure that all beings on Planet Earth are abiding by Universal Law and all disputes or disagreements are resolved peacefully.

This council is responsible for overseeing all disputes between any individual or group of beings. This council has many fractals and representatives from each Society. Any dispute or disagreement between beings or collectives will be brought to the Peace Council for guidance and resolution.

Making sure our cups are always full by practicing our self love disciplines daily, ensures that we always have more than enough love to give to beings around us, as they take from the overflow and don't depleat us. Always be in the heart when interacting with others, they highest outcome will always unfold from that place

This council meets regularly to discuss new tools, techniques and share updates on any pending peace disputes. This council is also responsible for full transparency and sharing all reports and disputes with Humanity so that all may have awareness and learning.

This council will be the leaders in holding peace on the Planet and being the examples for Humanity by holding space & creating resolutions and solutions.

Everyday Awareness

Be conscious and present on how you are feeling, we all have triggers and have days where we feel high easily and days where we feel like we are moving through mud.

The self love disciplines are tools to help you transform these energies, when you feel frustrated, low on energy or upset, use your tools to help you to raise your vibration ... don't forget Mom's radio station - it gives you those feel good vibes immediately!

Re-heart ~ everyone sees the world differently, suspend judgement and just send everyone love - every being is being their best with where they are at .. influence them with and through love

A close-up photograph of a ladybug on a dandelion seed head. The ladybug is red with black spots and is positioned on the central part of the seed head. The dandelion seed head is in focus, showing its intricate structure. The background is a soft, out-of-focus green, suggesting a grassy field. The overall image has a natural, serene feel.

NETG

*Global Relations
Council*

Roles and Responsibilities

This council is made up of representatives and ambassadors from each Society on Planet Earth. The purpose of this council is to create open communications between all Societies on how to best work together in solving global issues, how to work with equal energy exchange between Societies, and how to solve any disputes between Societies.

Reflect and Meditate:

*What does it mean to be a
"representative" or an
"ambassador"?*

*In what ways can I represent
Mother God to the planet and to
all of humanity?*

*This council is responsible for
communication and cooperation
between all ambassadors of each
Society, and to share with Humanity
all agreements and exchanges
between any Society.*

*Each ambassador is responsible for
providing information and insight
from other Societies to their own to
foster unity consciousness and
awareness.*

Brainstorm:

List the various ways we can connect and communicate with other ambassadors.

What issues are we facing in our societies that we have in common?

What issues are we facing in our local societies?

This council will meet regularly for open discussions between ambassadors of challenges their current societies are facing as a collective, and discussing solutions and offering insights from all other Societies.

Activity:

Postcard Connections:

Gather mailing addresses of other council members.

Either purchase or create your own postcards which represent the region you are an ambassador of.

Write a brief paragraph to introduce yourself to the other council members.

Address, stamp and send the postcards to your fellow council members.

*This council will be the leaders
of global cooperation and
responsible for keeping open
communication and collaboration
between all countries.*

Group Activity:

Blessing Momma Gaia

Consider taking time on a regular basis to collectively set intentions of love and blessing over our planet.

Visualize expanding our awareness from our personal vessels outwards in greater and greater spheres of influence.

From our bodies to our households or immediate surroundings – to our neighborhoods – to our towns – to our provinces or territories or states.... Until we are overlapping spheres of love embracing Momma Gaia in a web of love and light.

Look around as we surround the planet at your fellow ambassadors and honor and bless them as well.

Now look back at Momma and send Her a burst of love.

The Court ★ of ★ Universal Law

Upholding Universal Truth
&
Love in The Unknown

"Eons ago humans began a grand experiment... One in which they completely forgot who they are and entered life in duality... Now this time period is about to be over... All will Awaken and re-member they are One with God... many came by contract to birth the return to Universal Oneness, out of the illusion, with the help of our galactic brothers and sisters... We no longer wish to experience duality... We have given up our free will [the ego or the mind] and as a whole consciousness have chosen to Once Again Uphold Our Universal Truth, shining Our Lights, supporting life and un-conditional love... we have chosen Love instead of F.E.A.R [False Evidence Appearing Real]...We have joined in consciousness as One to light up Mother Earth and pull Her out of the darkness that She has been in...to heal ourselves and each other...We are on the verge of birthing a Whole New Story and each are arriving on mission to do this... We each hold a unique responsibility and roles as collectively we anchor in the light of Heaven...."

Mother of All Creation

The concept of the Utopian States is that of a more perfect United States of America. The attempt has been made to make small improvements everywhere. Since the United States of America has been a successful country for 200 years, large changes were avoided.

The Utopian States endeavors to be a living government, always improving and changing for the best. An attempt was made to foster benign "competition," between states to further facilitate the evolution of Councils and society.

The Utopian States also borrowed ideas from the Book of Genesis. Like the garden of Eden, the Utopian States models itself after a garden cultivating and encouraging the growth of that which is beautiful and good while resisting the growth of weeds. The allegory of the flowers and weeds applies to people, businesses, and states.

Utopia is modeled after the Garden of Eden; it is a government that allows people to do anything that Supports Universal Law. Utopia is a small, unobtrusive, and minimalist Council. Utopia does not tax or use jails. Like Eden, people can be banished.

Utopia is not communism or any other form of large, forceful, powerful or dictatorial government. Utopia does not enforce lifestyle or morality on an individual.

The system of the Utopian States described herein is that of a very simple Council where the people, in Unity Consciousness, thrive.

"Competition," is simply fun in the Utopian States. Everybody wins in the Utopian States. through their unique expression.

In the Utopian States, the representatives are treated like engineers. We ought not to tell an aeronautical engineer how to build a plane, they are the experts of that awareness. On the other hand, the aeronautical engineer ought not to tell us where to fly that plane [control] All BEings are granted their free expression within the Utopia.

Fully conscious, evolved BEings are aware of the Universal Laws innately and act as representatives within the Council of The Court of Universal Law to advise and assist those still awakening into harmony within their lives, jobs, homes and towns. The oldest within Creation have amassed the most experience = wisdom and draw upon this to assist the younger, still evolving souls.

George Washington, Thomas Jefferson, and James Madison held Utopian viewpoints, they were tapping into the True Blueprint.

George Washington stated that "Government, like fire, is a dangerous servant and a terrible master,".

Thomas Jefferson penned these immortal words: "We hold these truths to be sacred & undeniable; that all men are created equal & independent, that from that equal creation they derive rights inherent & inalienable, among which are the preservation of life, & liberty, & the pursuit of happiness."

Thomas Jefferson repealed all the direct federal taxes passed by the Federalists and boasted that ordinary Americans would never see a federal tax collector in their whole lives.

James Madison stated this: "I cannot undertake to lay my finger on that article in the Constitution which granted a right to Congress of expending, on objects of benevolence, the money of their constituents."

In the Utopian States, the rights of individuals to Contribute to Creation and, in equal energy exchange, have limitless access to Creation, is a fundamental right.

In the utopian society, the body of BEings is overseen by representatives of God, who guide based on Universal Truth, which is not be accessible from. lower perspective or those still within the E.G.O [Edging God Out] program. These Universal Truths are shared by the Rest of Creation, who lives in organic observance of them having not experienced duality and, therefore, are supreme and universal law.

THIS COUNCIL IS HERE TO HELP TEACH
EVERYONE HOW TO MAKE PRODUCTS
THAT BRING JOY & HEALING TO THE
PLANET!

WE MAKE SURE THAT EVERYONE IS
HAPPY & HEALTHY

PRODUCTS ARE ANYTHING THAT WE
BUILD, CREATE, OR MAKE FOR OTHERS
TO ENJOY!

THIS CAN BE IF WE MAKE A BRACELET,
BAKE A CAKE, BUILD A HOUSE, OR SEW
A DRESS.

WE ALWAYS WANT THE BEST FOR
OTHERS BECAUSE WE ARE ALL ONE! SO
WE PUT LOVE INTO EVERYTHING WE DO

WHEN WE ARE CREATING SOMETHING TO
GIVE TO OTHERS, WE MAKE SURE THAT
WE DON'T USE ANY HURTFUL
INGREDIENTS! WE ALWAYS CHOOSE THE
BEST ORGANIC INGREDIENTS.

WE PUT LOVE INTO EVERYTHING WE
MAKE & THE MOST IMPORTANT THING
IS TO BE IN JOY WHENEVER WE ARE
CREATING SOMETHING BECAUSE
OTHERS CAN FEEL IT !

WHEN WE CREATE A PRODUCT IN JOY & TO
BRING OTHERS JOY & HEALING, WE HELP THE
WHOLE PLANET!

WHEN WE USE ORGANIC INGREDIENTS, WE HELP
HEAL MOTHER EARTH!

WE CAN USE THIS SIMPLE PRAYER WHENEVER WE
ARE MAKING SOMETHING FOR OTHERS:

"THANK YOU FOR MOTHER EARTH FOR
PROVIDING EVERYTHING I NEED TO CREATE
THIS, I PRAY FOR IT TO BRING HAPPINESS &
HEALING TO THEM. I PUT ALL MY LOVE INTO
THIS."
